

## PRESIDENT WILL SAIL FOR EUROPE COMING WEEK

### Will Be Present At Opening of Peace Conference

WASHINGTON, Nov. 26.—President Wilson will sail for Europe next week to attend the opening of the peace conference and he expects to be back in Washington, soon after the middle of January. Plans for the president's trip are going steadily ahead but beyond the original announcement that he would leave immediately after the convening of congress on December 2 no details have been made public. However it was said today authoritatively that the president plans to be back on American soil within six weeks after his ship leaves this side. There has been no indication when the peace conference will assemble but the general belief here is that it will convene immediately after the Christmas holidays.

The president goes in advance to confer with the entente statesmen and it is expected that the broad outline of the treaty will be framed before hand with a view to its adoption soon after the conference meets.

The president was understood to have discussed his trip with members of his official family at the regular Tuesday cabinet meeting today but if his plans were revealed today they would not be permitted to become public.

Newspaper correspondents sent from this country will make the trip on a naval vessel, which will be placed at their disposal. They will leave next Monday ahead of the president because there is no ship available which can make as fast time as the steamer on which Mr. Wilson and his party will sail.

## AVIATORS ABANDON CROSS COUNTRY TRIP

TUCSON, Ariz., Nov. 26.—The flight of the Loughhead biplane to Washington, D. C., was abandoned today following a fall at Gila Bend, Ariz., in which Pilot O. S. T. Myerhoffer was slightly hurt and his mechanic Leo F. Flint was severely injured. The machine was badly damaged. The flight began at Santa Barbara, Calif., last Saturday. The aviators planned to reach Washington with but two stops. They were compelled to land yesterday at Gila Bend, because of engine trouble. A crowd assembled today to witness resumption of the flight. Pilot Myerhoffer and mechanic Flint were strapped in the front of the machine and assistant A. R. Bernau was seated in the rear. The machine started and ran for about 1,000 yards over the desert at a high rate of speed when the left engine when dead permitting the left side of the machine to drop down. The nose of the machine stuck into the ground and buried the plane straight upright with its tail in the air. The propeller and the entire front of the machine were wrecked.

Myerhoffer and Flint strapped in were unable to escape the burning gasoline that spread over them. Before spectators could render aid, Flint was badly burned about the head. He also suffered contusions of the head, but will recover. Myerhoffer was only slightly hurt. Bernau was uninjured.

## THOMAS J. MOONEY FAVORS DEMONSTRATION

SAN FRANCISCO, Nov. 26.—"I favor the demonstrations which are being held in my behalf," said Thomas J. Mooney in a statement today from his cell in San Quentin prison where he is awaiting execution on Dec. 13, following conviction of murder in connection with the preparedness day bomb explosion in San Francisco when ten people were killed in July, 1916.

"The bigger these demonstrations are the better I like them."

"I want a new trial before Judge Franklin Griffin," Mooney added, "as I believe he logically is the judge best qualified to try the case."

Griffin was the trial judge in the Mooney case and sentenced him to death. Judge Griffin has since been active in an effort to obtain for Mooney a new trial.

## INSISTS GERMANY PAY COST OF HER INVASIONS

Newark, N. J., Nov. 26.—In aiding Belgium, France and Italy to meet their reconstruction problems the United States can help them most by insisting at the peace conference that Germany pay the cost of her invasions, declared Francis H. Sisson, vice-president of the Guaranty Trust Company of New York, in addressing the Essex County Bankers' association here today.

"If Germany has lost her credit, she has mines and railroads and ports and many other sources of wealth which could be used to the partial advantage of the allies and to the payment of her indemnity," said Mr. Sisson.

## Haigh Commends Work of Daring Yank Divisions

WITH THE BRITISH ARMY IN BELGIUM, Nov. 24.—Sunday.—(By The Associated Press.)—The American second corps which served with the British fourth army during the closing days of the war has been rewarded for its work by a glowing letter of praise from Field Marshal Haigh.

The field marshal's message reads: "Now that you are leaving the British zone I wish again to thank you and all the officers, non-commissioned officers and men on behalf of myself and all ranks of the British armies in France and Flanders for the very gallant and efficient service you have rendered during your operations with the British fourth army."

"On the twenty-ninth of September you participated with distinction in a great and critical attack which shattered the enemy's resistance on the Hindenburg line and which opened the road to final victory."

"The deeds of the twenty seventh and thirtieth American divisions which took Bellecour and Nauroy and gallantly sustained the desperate struggle for Bony will rank with the highest achievements of the war."

"The names of Brancourt, Premont, Busigny, Vaux-Andigny, St. Souplet and Wassigny will testify to the dash and energy of your attacks. I am proud to have had you in my command."

## Telegraphers on All Roads Favor General Strike

CHICAGO, Nov. 26.—A vote favoring a strike of railway telegraphers on all the roads in the United States and Canada was cast in Chicago today by the general chairman and secretaries of the fifty one Orders of Railroad Telegraphers divisions of the western and middle western states. Similar meetings were held in Boston, Baltimore and Atlanta.

The Chicago meeting was representative of 46,000 government employees, who are dissatisfied with supplementary General Order No. 27, affecting wages and working conditions. It was voted to reject all these and telegrams were sent to the meetings in other cities asking similar action.

A telegram also was sent to the president of the order in St. Louis asking him to "convene immediately or not later than Dec. 2, all general chairmen of the organization for the purpose of putting on a legal strike rather than illegal strikes, such as now are being contemplated, as a protest against the acceptance of the supplement."

A revision of the wage awards is the first demand of the wire men who ask for a minimum of 60 cents an hour in place of the 48 cent minimum. Changes in the working conditions also are sought.

## JRGE SOLDIERS TO RETAIN INSURANCE

WASHINGTON, Nov. 26.—With "hold on to Uncle Sam's insurance" as a slogan, a nation-wide campaign to induce soldiers and sailors to retain their government insurance after their return to civil life was inaugurated today by Secretary McAdoo.

Every soldier and sailor, it was said, will have explained to him before he is discharged from service the rights and privileges held under the war risk insurance act. He will be impressed especially with the fact that he may continue his present government insurance at substantially the same low rate for a period of five years during which time he will be given ample opportunity to convert it into standard after-the-war forms of government insurance.

Relatives of soldiers and sailors, it was announced will be reached through an educational program.

## WANT INCREASES FOR TREASURY OFFICIALS

Washington, Nov. 26.—Salary increases for many treasury officials and employees were asked of congress today by Secretary McAdoo. He recommended that the six assistant secretaries be paid \$7,500 a year instead of \$5,000 and that smaller increases be given various others on the treasury roll.

## AUSTRIANS VIOLATE ARMISTICE

Rome, Thursday, Nov. 21.—Austria-Hungary is violating the armistice by releasing prisoners of war without food and poorly clothed, says an official note. The Italians also are being set free all at once instead of in successive sections.

## U. S. DIVISIONS WITHDRAWN FROM BRITISH FORCES

### Only 12,500 Officers and Men in Each

WASHINGTON, Nov. 26.—News from France today that the twenty seventh and thirtieth divisions which have been fighting with the British fourth army have been withdrawn with only approximately 12,500 officers and men in each, does not mean that these organizations have been reduced to less than half of their normal strength in the severe fighting on British front before the signing of the armistice.

Army officers recalled today that only two infantry machine gun units of these divisions went into action with the British forces, the artillery being used elsewhere. It also was regarded as more than probable that the infantry and machine gun units were reduced in number to make the division conform in size to the British divisions with which they were operating.

The British divisional unit numbers about 12,500 men. The twenty seventh division is the New York National Guard division commanded by Major General John F. O'Ryan, the only national guard officer to have served through the war with that high rank. The thirtieth division was composed of the Tennessee, North Carolina and South Carolina National Guard and was known as the "Wild Cat" division. Both these organizations saw heavy action with the British and were highly commended by British officers for their desperate fighting when Marshal Haigh's armies were smashing the Hindenburg lines in northern France early in the fall and in later engagements. Their losses undoubtedly may have been heavy, but it is not regarded as probable that half of their original strength figured in the casualty lists.

## No News on Troop Movements

So far as is known here no date for the return of these or any other divisions from France has been fixed.

When the divisions do return from France they will bear little resemblance in enlisted personnel to the same divisions when they started overseas.

Application of the one army theory to all the forces and the systems of replacement employed to fill gaps in front line organizations will be found to have been a very degrading factor in the divisional division of the divisions into national guard, national army or regular organizations.

This fact was sharply illustrated today by news from France that the 76th division had reached its embarkation point on the other side with a full strength of 61 officers and 1,000 men. It went over or filled substantially to full strength of 27,000 men.

The 76th is the national army division trained at Camp Devens, Mass. It was composed of the selective service men from New Hampshire, Maine, Vermont, Massachusetts, Connecticut and Rhode Island.

## CONTRACTS CANCELLED BY GENERAL PERSHING

Totalling \$1,000,000,000 Since Armistice Was Signed—Future Buying By Allies Will Be Through Purchasing Agency.

Tours, Thursday, Nov. 21.—Contracts aggregating \$1,000,000,000 have been cancelled by the American Expeditionary Forces since the signing of the armistice. In future, the American, British and French governments will pool their surplus stocks and will buy through a common purchasing agency.

Forty thousand men engaged in the American supply service will be sent to advanced areas as replacement troops for the army being recalled. The supply department will continue its routine work as long as necessary.

Forty-three construction projects including a deep water dock, twenty ships, terminal warehouses and rail roads have been cancelled. Orders for 2,500 locomotives, 21,000 railroad cars and hundreds of cranes, tugs, barges and derricks also have been recalled. The transport program has been reduced materially, while the ordnance department has been cut down by two-thirds. The reduction in the air service has not as yet been announced.

## CONFESSES TO MURDER

New York, Nov. 26.—James Regan, a Sing Sing convict confessed today that it was he who killed Mrs. Helen Hamel in her boarding house here last February, exonerating Miss Elizabeth Baksa of Freemansburg, Pa., 19 years old, now on trial charged with the murder.

## UNVEIL STATUE OF JAMES WHITCOMB RILEY

Greenfield, Ind., Nov. 26.—Some children throughout the country and in Hawaii and Japan contributed to the purchase of a life-size statue of James Whitcomb Riley which was unveiled in Greenfield, the place of his birth, today.

## LEAGUE OF NATIONS WILL COME UP IN CONFERENCE EARLY

### Two Distinct Views Have Developed On Subject

PARIS, Nov. 26.—(By the Associated Press.)—A league of nations is likely to figure before the peace conference at a very early stage of the proceedings, instead of being relegated to the close, after the territorial aspirations of the various powers are settled.

Two distinct viewpoints have now developed on this subject. The American view is that the coming congress will not be like the Vienna congress which devoted itself principally to arranging what each power should receive as a result of the Napoleonic upheaval. According to the American view the present war was based on certain high ideals and was not a struggle for territorial gains.

Therefore it is maintained, ideals should come before territorial aspirations in the deliberations of the congress and these ideals having been first defined should thereafter be the main guide in national aspirations. One of the chief of these ideals it is pointed out was to prevent future warfare and a league of nations has been generally and officially accepted as the most practical organization for accomplishing that ideal. It is therefore held that this should be one of the first subjects considered and should set a standard of ideals for other subjects following.

American View of Procedure can be stated that this American view of procedure has found warm supporters in England and France too there is also another viewpoint which clings to the old procedure under the Vienna congress whereby individual aspirations for territory should have first consideration. Those urging that territorial questions should come first say that it is highly desirable to sign a peace treaty embodying the essential details at the earliest possible moment terminate the official war period under which troops are held for the duration of the war and railroads, telegraphs and other public utilities are similarly affected until peace is declared. According to this view an early peace agreement on essentials would release the armies, including the American troops holding the occupied regions.

The appointment of the Brazilian delegates Nilo Pecanha, the foreign minister, and Ruy Barbosa, ambassador to Argentina, is leading to a discussion as to what extent the South American countries will support a league of nations and the effect of the league on the Monroe Doctrine. It is the general understanding that the South American republics have the same favorable attitude toward a league as the allies.

Whether a league of nations, in which Europe would be largely excluded, would extend its authority to the western hemisphere including South, Central and North America, is not clear, but the prevailing view is that its authority will be universal.

It is said that this would not be a substitution of the league's authority for the Monroe Doctrine in South American affairs, but rather an extension of the Monroe Doctrine whereby joint international action would supplement and reinforce the Monroe Doctrine.

## TURKS SHOULD HAVE PERIOD OF TUTELAGE

CONSTANTINOPLE, Saturday, Nov. 23.—The proposed independent states for the Armenian and Jewish populations in Turkey should have a period of tutelage under another nation, preferably United States, Dr. Cezle F. Gates, president of Roberts College in Constantinople declared to the correspondent today. Dr. Gates has been a resident of Turkey for thirty-eight years. Several cabinet ministers and other leaders of the progressive element in Turkey and Bulgarian have been educated at Roberts College.

"The Turks are a proud race and would resent such control but it is inevitable. For myself, I prefer America. I don't know that the United States ever would consider the task but what evaluation is chosen two principles should be followed. The government should be for the natives and not to enrich another people across the sea. Second, the government should be by the people, because everywhere it is evident that no people will consent long to be governed."

"If the Americans have any voice in the world's peace I hope they will strive to enforce those principles in Turkey."

## DEATHS IN NAVY FROM WAR CAUSES 1,233

WASHINGTON, Nov. 26.—Deaths in the navy from "war causes" totalled 1,233, Surgeon Braisted today told the house naval committee. No figures were given as to the deaths from disease.

The surgeon general said there were 5,000 patients in naval hospitals and that institutions at New York, Philadelphia, Boston and Norfolk were crowded. Appropriations for the navy medical department amounting to \$15,000,000 asked for under plans for continuing the war were reduced to \$9,200,000 by the surgeon general.

## BULLETINS

CHICAGO, Nov. 26.—Four robbers held up Andrew Hewek in Joliet today and escaped with \$10,000 in an automobile.

PARIS, Nov. 26.—Captain Andre Tardieu, head of the general commission for Franco-American war matters has just returned from London where he was in conference with Herbert C. Hoover, American food administrator, it was announced today.

PARIS, Nov. 26.—The French armies marching thru Luxembourg today reached the German frontier east of Weiswampach and Heinscheid, according to the war office tonight. At Redange, in Luxembourg, a hearty reception was extended by the municipality to the commander of the 48th division when it entered the town.

NEW YORK, Nov. 26.—Police reserves from three inspection districts were ordered out at 10 o'clock tonight to prevent a clash between soldiers and sailors and Socialists attending a meeting of the Internationalists in East 58th street.

BALTIMORE, Md., Nov. 26.—The Baltimore district of the Order of Railroad Telegraphers in session here tonight decided to postpone action with regard to the threatened strike until December 5. Government mediation was declared imminent.

WASHINGTON, Nov. 26.—Charges that corporations which control the anthracite coal fields decline to permit the output to be increased were made before the senate investigating committee today by William Wilhelm, a lawyer of Pottsville, Pa. He also charged that no effort has been made by the fuel administration to increase production.

NEW YORK, Nov. 26.—The League of Peace and National Association which endorsed the "victory program" announced last Sunday by the League to Enforce Peace, tonight issued a statement in which it made public additional conditions which it considers necessary to "provide freedom of economic opportunity."

WASHINGTON, Nov. 26.—Secretary Baker expects soon to submit to congress a request that an appropriation be made to relieve war workers who will be released when re-organization of the war department to a peace basis begins. "Thousands of employees will be dismissed then and Mr. Baker plans to ask that each be given transportation home."

WASHINGTON, Nov. 26.—No active division of the American expeditionary forces can be landed in the United States before Christmas, Secretary Baker said today. The policy of returning first the thousands of casuals and the auxiliary troops from England will postpone the movement of first line troops who have been designated for release by General Pershing.

## TROUBLE BETWEEN PERU AND CHILE NOW OVERCOME

### Apology Made By the Peruvian Government

NEW YORK, Nov. 26.—Difficulties between Peru and Chile, which resulted yesterday in recall of consular representatives by each nation from the principal cities of its neighbor, have been overcome by an apology on the part of the Peruvian government, Carlos Castro Ruiz, consul general of Chile announced tonight.

A cablegram informing him of the Peruvian apology was received tonight by Mr. Ruiz, according to his statement from the Chilean minister of affairs. The message the consul asserted authorized him to announce that the Peruvian officials admitted that in making public reports of outbreaks against their citizens in Iquique and Antofagasta, Chile, they had acted on misinformation. This was furnished, he said by the Peruvian consul at Iquique whose authority has been cancelled for this reason by the Chilean government.

The apology sent from Lima, Mr. Ruiz added, was wholly satisfactory by the Chilean officials and brought the misunderstanding to an end.

Despite a former dispute between the two countries, Mr. Ruiz declared that Chile had the utmost sympathy for Peru and had taken steps to watch the frontier to prevent Peruvian revolutionists from receiving arms or ammunition from compatriots residing in his Chile. His government he added had taken active measures to assist Peru in maintaining a stable government.

## FOCH CHANGES HEADQUARTERS

Luxemburg, Nov. 26.—(By The Associated Press.)—Marshal Foch the allied commander in chief has established headquarters here. He arrived here yesterday with his staff.

## TRANSFER OF 85 SHIPS TO BRITISH NOT APPROVED

### U. S. Offers to Take Over Ownership of Vessels

WASHINGTON, Nov. 26.—The United States government has refused to approve the proposed transfer to a British syndicate of the vessels now under British registry owned by the International Mercantile Marine corporation.

Bainbridge Colby of the shipping board in making this announcement tonight said the government had offered to take over the ownership of these vessels upon the terms of the British offer.

The vessels concerned in the British syndicate's offer number approximately 85 of an aggregate tonnage of 730,000 gross tons. They include some of the most important now engaged in the Trans-Atlantic service, such as the Olympic and many others of familiar names.

This formal statement was issued at the office of the shipping board.

"Announcement was made at the shipping board that the International Mercantile Marine corporation has today been advised of the government's disinclination to give its approval to the proposed transfer to a British syndicate of the American ownership which has for years been vested in the International Mercantile Marine corporation of the latter's vessels now under British registry."

Bainbridge Colby's Statement.

"Bainbridge Colby of the shipping board stated that an offer by British syndicate to acquire from the International Mercantile Marine corporation the tonnage in question had been under consideration for some time. The offer was expressly conditioned upon its approval by both the United States and British governments. The negotiations he further stated had been carried on by the International corporation with entire frankness so far as the government is concerned and the decision now reached is due to the reluctance felt that an ownership which has so long been held in this country covering so important a tonnage should at this time and under the conditions now prevailing in shipping throughout the world be suffered to pass out of American hands."

"The vessels immediately concerned in the syndicate's offer are approximately eighty five in number and aggregate 730,000 gross tons or, in their dead weight equivalent to about 1,000,000 tons. They include some of the most important vessels now engaged in trans-Atlantic service, such as the Olympic and many other vessels of large type and familiar names."

"The government has announced a willingness to take over the ownership of these vessels upon the terms of the British offer which is considered a fair price for tonnage of this exceptional character."

"Notification has been sent to the International Mercantile Marine corporation of the government's decision."

"Negotiations for the sale of ships have been under way for some weeks and a few days ago the shipping board requested the International Mercantile Marine corporation to take no further steps looking toward consummation of the deal until the government could reach a decision."

## M'ADOO REDUCES PULLMAN FARES

WASHINGTON, Nov. 26.—Elimination of the one half cent mile railroad fare for Pullman transportation effective Dec. 1 has been decided on by Director General McAdoo.

The order to be issued soon also will remove other differentials imposed by the passenger rate order last June on tourist sleepers and other special accommodations. It will not cancel any of the charges imposed by the Pullman company. This will mean a loss to the railroads of between \$40,000,000 and \$50,000,000 it is estimated. No radical changes will be made soon in passenger train schedules or service. It was said today at the railroad administration. A few extra trains will be added to accommodate mid-winter tourist traffic to California and Florida.

## RETURN VERDICT OF MURDER

Dubuque, Ia., Nov. 26.—A verdict of murder in the second degree was returned late Monday afternoon by the jury in the Nicholas Christ murder case. Christ is accused of shooting George Partos when the latter found Christ with Partos' wife. The attorney for Christ claimed his client acted in self defense. The crime occurred on September 30. The jury was out four hours.

## ISSUE CLOSES TODAY

Washington, Nov. 26.—The issue of 4 1/2 per cent treasury certificates of indebtedness dated Nov. 7, due March 15 and acceptable in payment of taxes, will close tomorrow night. The treasury department announced today that about \$700,000,000 had been subscribed to date.

## Daring British Sea Fighter Arrives in U.S.

NEW YORK, Nov. 26.—Captain F. B. Carpenter of the Royal Navy, leader of the daring naval raid last April in which the German submarine base at Zebrugge, Belgium was bottled up by sinking vessels in the channel, arrived here today on the British steamship Balmoral Castle. He has been detailed to this country on a special mission by the British government.

The casualties among the crew of the vindictive, Captain Carpenter's cruiser in the Zebrugge attack were 400 dead and wounded, the captain said today. The losses were suffered while the men were rushing German batteries on the Mole.

As an interesting sidelight on the spirit animating the British sailors the captain stated that the three "block" ships chosen for sinking in the channel were supposed to have skeleton crews of only fifty men each, but that after these crews were picked other men hid themselves on board in order to get into the action. Thus one of the "skeleton" crews, he said, was found to number 87 men.

The vindictive herself carried 1,000 men and out of the 400 killed and wounded all but twelve were carried back on board by their comrades. For his services in the Zebrugge attack, in which he was wounded, he was promoted to a captaincy. He has been decorated with the Victoria Cross, the French Croix de Guerre with palms and other medals for heroism.

## Extradition of Former Emperor Being Considered

LONDON, Nov. 25.—It is understood that the question of the extradition of the former German emperor is being considered by British law officers of the crown, who are working in close cooperation with the French authorities. Action in premises was taken immediately after the flight of the former emperor to Holland.

The Evening News says it understands the law officers have concluded that the allies are entitled to demand the extradition of the former emperor and that this decision applies also to individuals who have committed or given instructions for the commission of extraditable crimes. It is said that Holland takes the view that she has not the power to surrender such persons without the consent of Germany.

The French premier, M. Clemenceau, recently requested of Charles Lyon-Caen, dean of the faculty of law of the University of Paris, an opinion on the possibility of the extradition of William Hohenzollern. My Lyon-Caen asked to be given time to prepare a decision.

One of the leading French authorities on international law, Edouard Clunet, is reported to have advanced the opinion that it was impossible to demand the one-time emperor's extradition.

The former emperor has been indicted three times for murder in England in connection with the sinking of the Lusitania, German aerial raids and the shelling by warships of unfortified east coast towns.

## AUSTRIANS LOOK ON THE BRIGHT SIDE

VIENNA, Nov. 25.—(By The Associated Press.)—The shadows of defeat, hunger and financial ruin have not yet blighted the spirit of what was once the gayest and most beautiful of the European capitals. Hundreds of Americans who have lived here during the war speak highly of the courage, fortitude and kindness of the citizens of Vienna, who did not molest or intern them after the United States entered the war and in many instances aided them with loans of money. All the people realize that they are living amid famine and are loaded down with debt. Fathers of men killed or made prisoner keep smiles on their faces.

## TURKEYS PLENTIFUL

Chicago, Nov. 26.—Thanksgiving turkeys in the Chicago market sold for an average price of 45 cents a pound today and were plentiful.

## EXCHANGE CONGRATULATIONS

Rome, Nov. 26.—Admiral Di Revel, commanding the Italian Navy and Admiral Sims, the American commander, have exchanged messages of congratulations on the allied victory.

## WEATHER INDICATIONS AND TEMPERATURES

Illinois: Fair Wednesday and Thursday; warmer Thursday in south and central portions.

Temperatures

The current, maximum and minimum temperatures as recorded Tuesday were:

Jacksonville, Ill.	39	45	21
Boston	26	30	18
Buffalo	35	36	22
New York	32	36	28
New Orleans	56	60	43
Chicago	30	33	23
Detroit	30	34	20
Omaha	30	32	13
Minneapolis	32	36	13
Helen	24	30	13
San Francisco	58	60	50
Winnipeg	34	34	16
Jacksonville, Fla.	62	64	46

## SAYS PRESIDENT CAN'T DISCHARGE DUTIES ABROAD

### Opinion Advanced by Former Attorney General

NEW YORK, Nov. 26.—George W. Wickham, attorney general in the Taft administration, in an address here tonight before more than a hundred educators, lawyers, bankers and merchants engaged in international trade who are members of the Council on Foreign Relations, advanced the opinion that the constitution makes it mandatory upon Vice-President Marshall to assume the office of president if Mr. Wilson leaves the United States to attend the peace conference.

"The projected journey of the president to France and his suggested sojourn there for an indefinite period," said Mr. Wickham, "brings up for the first time in our history the question of the effect of such absence and of the powers of the vice-president because of such absence."

The former attorney general quoted Section One of Article Two of the United States constitution, which he said, prescribed the mode of procedure in event of the president's "removal from office, his death, resignation or inability to discharge the duties of said office."

He maintained that absence of the president from the seat of government and the country "constitutes an inability to discharge the powers and duties of his office," within the meaning of the law.

According to Mr. Wickham, the two most important functions the president has to perform in connection with a session of congress at which time he held it is the president's duty to be at the seat of government are:

"First, from time to time to 'give to congress information of the state of the union and recommend to their consideration such measures as he shall judge necessary and expedient' and, second, 'to consider bills which shall have passed the house and senate and if he approve, to sign them and if he disapprove to veto them.'"

Mr. Wickham declared the absence of the president in Europe would "constitute an inability to discharge the powers and duties of his office."

"The constitution," he concluded, "does not provide who shall decide when a disability occurs justifying the vice-president in assuming to act as president. \* \* \* If the vice-president should assume to act and should himself veto a bill and at the expiration of ten days from the date of its passage no veto from the president himself. In writing should have been received, a question would arise for the courts to determine as to the powers of the vice-president to act for the president."

"That these questions in the past never have arisen for actual decision is a tribute to the wisdom of the framers of the constitution, forming with the traditions of their great office with that unbroken custom which ripens into law and in not suffering the whisperings of personal ambition to lead them to depart from the paths of accustomed action by which the creation of new, uncertain and perhaps dangerous questions of constitutional right and power."

## Y. M. C. A. CARES FOR STARVING PRISONERS

New York, Nov. 26.—Famished and half naked, 2,600 prisoners of war freed by the Germans have come stumbling into Baccarat, Nancy and Lunelville in the past few days and have been cared for by the Y. M. C. A. workers on the Lorraine front according to a cablegram from Paris given out here today by the headquarters of the Y. M. C. A. The Germans had brought the prisoners to the border, given each a piece of bread and turned them loose.

## TROOPS LEAVE FOR VIADIVOSTOK

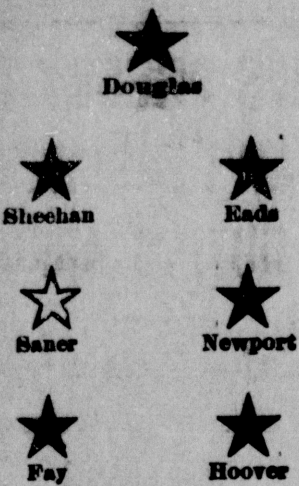

Washington, Nov. 26.—The Canadian-Siberian expedition is being organized at a reinforcement for the British forces sent to Vladivostok with the other allied and American troops to aid the Czechoslovak army in the campaign against the Bolsheviks and some of the Canadian troops have already left for Vladivostok.

## MUSTER OUT 1100 TODAY AT CAMP GRANT

Camp Grant, Ill., Nov. 26.—Muster out of 1,100 candidates in the central infantry officers training school will be accomplished tomorrow. The granting of honorable discharges to officers will begin next week. They are officers who have elected to be permanently separated from the service.

MORE PAY FOR  
CABINET MEN.

Mr. McAdoo's resignation and the reason he gave will likely result in provision for increasing the pay of cabinet members. Assistants in the treasury department are also to benefit for they have already made application for 50 per cent increases in their salaries, claiming that the government provision in their behalf has by no means kept pace with the increased cost of living. When the congressmen engaged in the task of raising cabinet members' salaries they may slip in something on their own account if they are convinced that the people "back home" will stand for the increases.

RELIGION KING KEEPING  
CLOSE TO PEOPLE.

King Albert of Belgium in his address to his people talked more like the head of a republic than a monarch. The king has undoubtedly been influenced in his ideas by the governmental development all about him in Europe, and he proposes to give full suffrage rights to his people. The king has taken a look into the future, is recognizing the rights of mankind and possibly has sensed the fact that his kingdom will be much more stable and enduring if the people are really given a voice in the government.

THE PERSHING  
PRESIDENTIAL TALK.

General Pershing as a candidate for the presidency in 1920 may become a formidable factor in the campaign, but the chances are that his Ohio friends launched the "Pershing Republican League" without consulting him. America with one accord joins in honoring the commander of the American Expeditionary Forces and in paying tribute to the genius and spirit he has shown. But unless conditions change in the coming two years the public, while idolizing Pershing as a military figure, will not look upon him as best fitted by experience in statecraft to guide the destinies of America thru the somewhat difficult years of the after-war period. Just now talk about his presidential candidacy can mean only embarrassment for the American general.

SOLDIERS WILL  
GET THE JOBS.

Mayor Thompson has named John J. Garrit, formerly colonel of the old second infantry regiment, now a part of the Prairie division on duty in France, as chief of police. The item is important because it indicates public feeling toward men in the service. It has been often said that after the war the men who have been in the army will have decided the inside track for political preferment. The same thing holds true with reference to appointive positions. The soldiers will have decided advantages over civilians in this regard, and something will of the spirit which has found expression in the lines: "Nothing too good for the soldiers," is going to remain after the war.

RAILROAD EMPLOYEES WANT  
McADOO TO REMAIN.

The offer of employees of railroads to make up a purse of \$2,000 a month for Director General McAdoo if he will retain his position provides the salary deficiency Mr. McAdoo assigned for the surrender of his position. Twenty four thousand dollars per annum added to the salary of \$12,500 allowed by the government would no doubt meet the expenses of Washington life. The offer may have been made with good intention but the director general could well be so obligated to his employees. That Mr. McAdoo has been very liberal in his allowances made to the railroad workers is apparent from the figures. Practically every petition for increased pay has been granted. Evidently to men like wage settlements of that kind.

THOSE DEFERRED  
CASUALTY LISTS.

Along with other papers, the Springfield News Record is protesting because the war department is so far behind with the list of casualties. There seems to be good reason for this protest for although hostilities ceased more than two weeks ago, not half of the list of casualties has been announced thru the war department. If the present rate of publication is followed it will be several weeks before the complete list has been made public. There were no doubt good reasons in the past why the names could not be sent by cable each day, but that reason now seems to be past and the public has some justification for the impatience manifested. Another thing about publication of casualty lists under the present system is that the releases are given to the newspapers day after the information has been forwarded to the near relatives.

THE FARMERS  
RESPONSE.

Illinois farmers "went over the top" by increasing their winter wheat acreage over 10 per cent, according to H. E. Young, secretary of the Farmers Institute. They planted nearly a quarter of a million acres more than were seeded the previous fall. The total acreage increase for the United States was only about 4 per cent. Illinois did 150 per cent better than the country at large. So earnest and vigorous was the response of Illinois farmers to the call of the Government that 14 per cent of the total winter wheat increase of the entire country was made in Illinois.

Illinois has never produced much spring wheat. The Government asked for 100,000 acres. Kane county farmers alone seeded over 21,000 acres or nearly a quarter of the total acreage demanded. Other northern counties responded most nobly, and instead of 100,000 acres, the amount requested by the Government, Illinois planted over 200,000 acres in spring wheat.

No sooner was the call for "more wheat" issued than Illinois set about to increase the yield as well as the acreage. Better seed beds were made, better seed sown, and more fertility added to the soil. As a result, yields generally were increased, and Illinois produced a record breaking wheat crop of over 45,000,000 bushels, an increase of over 50 per cent over the previous year. Illinois' record in wheat production stands unchanged. It is a record of unsurpassed agricultural efficiency. Her farmers

have this year set a mark in wheat growing that has not only commanded National admiration, but has won the plaudits of the Allied governments, their people and legions of brave soldiers who are depending upon America. She has demonstrated her ability to farm as well as fight.

POINTS ANEW TO WORLD  
DEBT TO FOCH.

The world has not been derailed in the homage paid to Marshal Foch for the part he has played in bringing the world war to its successful conclusion much earlier than was commonly thought possible. Nevertheless it is probable that in giving this credit to the French war chief, there is seldom full recognition of how much it has meant to have the war close months earlier than the majority of people expected the end would come.

The Public in a very succinct way points out the special debt that the Allied nations owe to Marshal Foch's military wisdom: "To Marshal Foch must be given a world's gratitude not merely for the genius that planned and inspired the wonderful succession of victories since July, or the calm confidence that sustained the preceding disasters, but primarily for his having forced, this year, the conclusion of the war. When the German armies were thrown back out of the great salients that they had driven toward Paris and the coast, the intrenched Hindenburg positions, no one expected that any large effort would be made before spring. It was generally accepted that the end could not come before next summer.

"The easy thing for Foch would have been to wait thru the winter and then fight the last battles with the certainty of overwhelming strength. But he has ended the war this year. We have only to reflect that its continuance thru another twelve months would have cost ourselves, and the coasted upon exhaustion his own devoted country had come, to understand that his patriotism outweighed his desire for assured personal success, and drove him to unremitting effort to end, even with the difficulties of incipient winter, the breaking strain that his country was enduring."

THE WITHERED ARM.

By Edith M. Thomas of The Vigilantes.

"What can a withered arm do—what?"  
You think no force it hath? God wot.  
That if the soul be withered, too,  
Unmeasured evil it shall do!

(Who knows, if from maternal throes  
A most unfilial hate did grow?  
Deeming itself accursed from birth,  
It reached to lay like curse on earth?

The withered soul had greed of power,  
But still it could abide its hour;  
The withered arm sought arms to wield,  
And many to its uses sealed.

The withered arm—the withered soul—  
These did a mighty force control;  
The withered arm bewitched a folk  
(That all too late from trance awoke.

The withered arm—what hath it done?  
Ask rivers that with crimson run,  
Ask air where Terrors make their home,  
Ask earth become a catacomb!

Ask of the dead, whose grave-pits yawn;  
Ask of the souls in madness gone—  
The ghosts of all the living dead  
Its lustful slaves to slavery led!

This hath the withered arm done—this!

It hath a wage it shall not miss—

The Withered Arm, the Withered Soul,  
That wrought God's pleasant world such harm!

Rippling Rhymes  
By Walt Mason

Thanksgiving.  
Be thankful! For we've lived to see the dawn of worldwide liberty.

The tyrant sees his throne upset—or 'twill be soon, already yet—and fettered nations break the chain they long have worn in tears and pain. The tyrant who kicked up the row that he might wear upon his brow the laurels of a conqueror, has got his stomach full of war. Be thankful that the tyrant's hopes have gone slipping down the slopes, be thankful that the tyrant's schemes proved, in the washing, hop-joint dreams. Be thankful that the Prussian sword, like Jonah has gone overboard; no longer can the Prussian frown make any people knuckle down. The bully of the world is licked, the bosom of his pants well kicked. Be thankful that we had our share in those great doings over there. Be thankful that our boys, just panting to get to the foe, and showed the world how we can fight when we defend eternal right. Be thankful that you've had a chance to help our dauntless lads in France, and that you still may give and give, that war activities may live. The Red Cross Roll Call soon will come, and you should lay aside a sum, composed of cartwheels and of seeds, to help the use that helps our lads. It's good such causes to advance, be thankful that you have the chance.

THIS DATE IN HISTORY

November 28, 1863.—Steamer Silver Wave sunk in nine feet of water, one mile below Commerce, on the Mississippi, laden with commissary stores and horses, bound for Nashville.

Engagements Announced.

Capps-Wylder.  
Informal announcement was made recently of the engagement of Miss Ethel Wylder and Mr. Julian Capps.

The date for their marriage has not been made public. Miss Wylder is a daughter of the late Rev. J. D. Wylder and is well known to Jacksonville society and literary people. For several years she has been a teacher in the public schools and is now a member of the faculty of the David Prince school. Mr. Capps, who is a son of Mr. and Mrs. A. T. Capps, went to Princeton after finishing his course at Illinois college. He specialized in sciences in which he has shown special ability and since the war began has been in the service of the United States, doing important work as a research chemist.

At a party given recently by Mrs. Leo Smith at her home in Carrollton, announcement was made of the engagement of Miss Ione Linder to Mr. Ellisworth Black, son of Dr. and Mrs. Carl E. Black of this city. Mr. Black is now a student in the medical department of Washington university. He is a member of the student army training corps and during the progress of the war has been doing some special government research work. The exact date of the wedding has not been announced but it is understood that it will be solemnized some time before the opening of the new year.

Miss Linder, who was a student at Illinois college here, for several years, was prominent in college affairs during her student days and was very popular socially. Mr. Black was in college at the same time and it was in those days that the attachment was formed which has just resulted in the engagement announcement. Mr. Black made an exceptional record in college and his special interest in medical work has been a factor in his excellent progress since becoming a student at the university.

Pennsylvania crushed coke  
for hard coal base burners.

GEO. ROGERSON.

IS MADE SERGEANT.  
Floyd Heckle, in the quartermaster's department at Camp Meigs, Washington, D. C., was recently promoted to sergeant. He entered the service in August. Sergeant Heckle, who is in the office of the State School for the Blind, has many friends in Jacksonville who will be interested in knowing of his good work. Mrs. Heckle, who is principal of the state school colony at Lincoln, is expected today to spend Thanksgiving with her parents, Mr. and Mrs. D. P. Roy, on Prospect street.

FILES SUIT TO REGAIN  
CONTROL OF PROPERTY.  
Los Angeles, Cal., Nov. 26.—Adolph Wolgast, once lightweight champion of the world, filed a petition in the probate court here today to end a guardianship of his affairs and regain control of property valued in the petition at \$13,000. Wolgast's property was placed in the hands of a guardian in 1917. He alleges in his petition that he is now fully competent to direct his own affairs.

WINCHESTER

Winchester, Nov. 26.—Mrs. Sarah Dickson and Mrs. Henry Keith left Tuesday morning for Bluffs to attend the funeral of a relative.

Mrs. R. R. Gosen and little son left Tuesday for Virden to visit relatives.

Mrs. David Hainsfurther, daughter, Miss Dorothy, Misses Vivian Bringle, Mary Higgins, Angie Moore and Helen Kinslow were Jacksonville visitors Tuesday afternoon.

Miss Gertrude Welch returned yesterday to Virden where she is teaching in the public schools.

Miss Leta Ross of Alsey is here assisting in the C. B. & Q. offices for a few days.

Edward Balsley and daughter Josephine and son John were Jacksonville visitors Tuesday.

Quite a number of citizens from Bluffs were attending court Tuesday.

Gordon Day is able to be out again after a week's illness.

The following court orders were entered Tuesday in the Scott county circuit court:

James B. Davis, Jr., vs. J. E. Hurbank, suit to recover real estate commission, finding made for plaintiff and damages assessor at \$180.

Village of Bluffs vs. Ben Torrence, suit to enforce payment of dog tax, trial still in progress.

VIRGINIA

Virginia, Ill., Nov. 25.—Mrs. Paralee Fox left Tuesday for an extended visit with her brother, Colonel George Cox and family at Rochester, N. Y.

Joseph L. White and son George of Chester are the guests of relatives in this city, having been called to attend the funeral of the late Leslie White whose remains were brought to this city from Vaughn, Miss. for burial.

Mrs. J. B. Black left today for Washington, D. C., to spend the winter with relatives, as has been her custom for a number of years.

Four members of the family of J. N. Ivey are ill with the "flu". Mrs. W. R. Marlin, Louise Angier and Mrs. Orland Virgin were in Springfield several days last week where they went as delegates to the State Rebekah Assembly.

Mrs. Ada Johnson of Kansas City is the guest of her aunt, Mrs. E. J. Hubb and family.

Mrs. William Greenwood received a telegram recently conveying the sad news of the death of her brother, Abner Wright, at Wichita, Kan.

Sergeant Fred Gust of Camp John Wise, San Antonio, Texas, was a visitor in this city Tuesday while en route to his home in Beardstown.

Ex-Sheriff and Mrs. J. R. Sligh are moving this week from the county jail to the J. C. Bailey residence.

Sheriff-Elect G. W. Farrar and family of Beardstown will remove to this city and occupy the jail residence.

Mrs. Loren Dinwiddie entertained Thursday, Nov. 21, at a "kitchen rush" for her friend, Miss Josephine Sudbrink who will wed Mr. Roy E. Jockish on Nov. 28.

Ruel G. Crum and Orville Hackman jointly purchased 1.1 acres of land near this city, known as the Massey farm. Purchase price was \$236 per acre.

Funeral services over the remains of Frank E. Greenwood, son of Mr. and Mrs. F. M. Greenwood, who passed away at Camp Dodge, Ia., Nov. 18, were conducted at the graveside by Rev. Max Wiles, pastor of the Presbyterian church, Nov. 22. Deceased was born near this city 28 years ago. Death was due to pneumonia, which followed an attack of influenza.

Deceased enlisted in the medical corps at St. Louis in June, 1917, and was transferred to Camp Dodge later. His survivors are his parents, and one sister, Miss Lorena, at home. He was an exemplary young man and was held in high esteem by all who knew him, his grief stricken parents have the sympathy of the entire community.

Miss Ida Greathouse, operator at the B. & O. station, left Saturday evening for Norris City where she will spend the week end with relatives.

Otto Sawatish of Chicago arrived in this city with his family and will occupy the H. F. Downing home. Mr. Sawatish will be employed at the J. W. McIntire dry goods store to fill the vacancy occasioned by the resignation of Sam Buck.

Mr. McCarthy, division operation of Springfield, spent two days in this city on business.

525 OFFICERS WILL  
BE DISCHARGED

Rockford, Ill., Nov. 26.—Five hundred and twenty-five officers at Camp Grant will be honorably discharged Saturday, Nov. 30, it was announced today as a step toward demobilization. The list includes all ranks from second lieutenants to majors.

Five hundred enlisted men invalided home from abroad, the victims of gas and shell shock, are expected to arrive at Camp Grant Saturday. It is believed that the base hospital may be converted into a reconstruction hospital.

PLENTY OF JAM FOR BRITISH

New York, Nov. 26.—There is no doubt that "Tommy Atkins" likes jam. Today the British Steamship Maedon from Australia carrying no less than 3,000 tons of the famous English sweet for British soldiers, came into port on her way to France. Jam is a favorite dish with the British.

ASSEMBLY WOUNDED  
IN 27 CAMPS

Washington, Nov. 26.—Soldiers who have been incapacitated in overseas service and who are convalescing in this country will be assembled at twenty seven camps for organization into convalescent detachments. General orders issued today by the war department provide for the formation of these detachments and the abandonment of the practice of transferring convalescent men from overseas to development battalions.

The convalescent men will be sent to camps nearest their homes and the order says "it is the intention to discharge all overseas convalescents as soon as possible consistent with maximum physical improvement."

MORE RESTRICTIONS LIFTED

Washington, Nov. 26.—Further relaxation of restrictions on exports was announced today by the war trade board. Several hundred commodities were removed from the export conservation list, effective immediately. The list of removals issued today includes various alloys and metals, iron and steel of certain kinds, machinery and tools; aeronautical machines and instruments and marine engines, instruments and appliances; dental and surgical instruments, locomotives; blast and steel furnaces, hardware, including pipe, wire and aids; railroad building materials and certain appliances; chemicals and drugs; animal hair, and articles manufactured from rubber.

ENEMY EXCHANGE SEATS  
TO BE SOLD

New York, Nov. 26.—Fourteen enemy-owned seats on the New York stock exchange, the New Orleans cotton exchange, the New York cotton exchange, and other markets have been placed under the control of the Federal Reserve Board, it was announced here today. The seats will be sold shortly to American citizens.

FAVOR STRIKE FOR MOONEY.

San Francisco, Cal., Nov. 26.—Approximately 500,000 workers in the United States have taken action favoring a strike for Thomas J. Mooney and thousands are expected to follow, the International Workers' Defense League which is handling the Mooney defense announced here today.

WILL EXCHANGE MONEY

Paris, Nov. 26.—Quartermasters at all base ports have been instructed by the quartermaster-general to exchange soldiers' French money for American money before the troops sail. American money has been obtained from the United States and from French banks and the exchange will be at the United States treasury's current rate.

Boys in Service in France Write Home—Litterberry News Notes

Litterberry, Nov. 26.—Mrs. McFarland received a letter written Oct. 24, from her son John, Monday night. He is in France and has been for almost three months. This is the first word she has had from him since he arrived and had almost given up of ever hearing from him. The community also rejoices with her that he is still living. He wrote that he was well and for her not to worry and for them to write, so it seems as tho he hasn't received any letters from him at all. He said he was in hearing distance of the big noise and wanted the address of some of the home boys, as he hadn't seen a one since he left the U. S. A. Mr. Lehey and Mr. Roach also had letters from their sons over there Monday.

Misses Lora Petefish, Georgia Litter, Margaret Chapman and Ruth Mellor and Mr. Dewey Petefish and Floyd Martin took a hike to Virginia Sunday afternoon by way of the C. P. & St. L. R. R. They stopped on the way and cooked their supper, returning on the 7 o'clock train. They report a fine time.

Mrs. Pierce has returned to her home in Springfield for the winter.

Misses Olive and Helen Scribner of Jacksonville spent Sunday with home folks.

Miss Thelma Litter, telephone operator, is back at the board after a weeks absence taking care of her mother who was sick with the flu. Miss Lora Petefish filled her place.

Mr. and Mrs. William Murray spent Saturday and Sunday in Jacksonville with Mrs. Cox and family.

Mrs. McFarland is visiting with Mrs. Perry Henderson this week.

William Hull and family entertained Mr. and Mrs. Earl Cox of Savage and John Young and family Sunday.

Our store will be closed all day Thanksgiving. We will be open Wednesday evening until 8:30 o'clock.

## HEALTH TALK.

## SPANISH INFLUENZA OR GRIP

By Dr. LEE H. SMITH.

An old enemy is with us again, and whether we fight a German or a germ, we must put up a good fight, and not be afraid. The influenza runs a very brief course when the patient is careful, and if we keep the system in good condition and throw off the poisons which tend to accumulate within our bodies, we can escape the disease. Remember these three C's—a clean mouth, a clean skin, and clean bowels. To carry off poisons from the system and keep the bowels loose, daily doses of a pleasant laxative should be taken. Such a one is made of May-apple leaves of alio, root of jalap, and called Dr. Pierce's Pleasant Pellets. Hot lemonade should be used freely if attacked by a cold and the patient should be put to bed after a hot mustard foot-bath.

To prevent the attack of bronchitis or pneumonia and to control the pain, Anuric tablets should be obtained at the drug store, and one given every two hours, with lemonade. The Anuric tablets were first discovered by Dr. Pierce, and, as they flush the bladder and cleanse the kidneys, they carry away much of the poisons and the uric acid.

It is important that broths, milk, buttermilk, ice-cream and simple diet be given regularly to strengthen the system and increase the vital resistance. The fever is diminished by the use of the Anuric tablets but in addition, the forehead, arms and hands may be bathed with water (tepid) in which a tablespoon of salaratus has been dissolved in a quart. After an attack of grip or pneumonia to build up and strengthen the system, obtain at the drug store a good iron tonic, called "Ironite" Tablets, or that well known medicinal tonic, Dr. Pierce's Golden Medical Discovery.

## BASSETT'S JEWELRY STORE

Read the Journal; 12c a week

Yes, it's true that a good workman can get along with mighty poor tools; and it is equally true that a good cook can get up a fine dinner with but insufficient equipment. But, is it necessary? We don't believe so, not in this day when there are so many and so reasonably priced items of kitchen equipment which so lighten the good housewife's labors.

And this is all true of the table setting; one can eat off a pine board and use tin and steel. But, is it necessary?

We would like to show you our fine line of Roasters, Carving Sets, Baking Dishes, Percolators; Triple Plated Ware—Knives, Forks, Spoons, Odd Pieces and Children's Sets.

## A CLEAR COMPLEXION

Ruddy Cheeks—Sparkling Eyes—Most Women Can Have

Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients raised with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women as well as men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep in the pink of condition. 10c and 25c per box. All druggists.

## DISSENSION IN RETIRING GERMAN ARMY

Develops Between the Prussians and Bavarians—Responsibility for the Loss of the War One of the Causes.

American Army of Occupation, Nov. 26.—(By the Associated Press.)—Bad feeling has developed between the Prussians and Bavarians in the German army withdrawing before the American army of occupation. Responsibility for the loss of the war is one of the chief causes of dissension, according to reports. The trouble is said to have reached such a stage that the Bavarians and Prussians refused to divide their rations with each other or to share billets.

## WITH THE COLORS

From Corp. Claude H. Young

Marchel McCain of 222 1/2 West State street, is in receipt of the following letter from his friend, Corp. Claude H. Young, with the American forces in France:

My Dear old Friend: How are you? I hope well and having a good time. I am well and doing fine. I wish you could have been with me for I have seen lots of things that I never would have seen if I had not made this trip. I will tell you all about it when I get home, for I think we will finish it now before long, so you take good care of yourself.

I received the cigarettes you sent me and was more than glad to get them. Well, old boy, we are seeing lots of things and also hearing lots of things. I will tell you what they are and how they sounded when I come home. Everett sends regards. So be a good old boy until I see you again, and write me all the news. Oh yes, I received a letter from you since I have been over here. It was transferred to me from the camp.

Well, as I don't know much news I will close for this time. Your friend, Corp. Claude H. Young, Co. A, 803d Pioneer Inf., A. E. F.

From Private C. E. Wright.

The following letter has been received by Mrs. Ed Wright of 806 West Railroad street, from her son, Private C. E. Wright, member of Co. B, 23d, E. 806, A. P. O. 701, A. E. F.

Somewhere in France, October 20, 1918. Dear Mother and Father—

I received your letter today and was glad to hear from you all. I am getting along all right and am hoping you all well at home. It is muddy over here now setting in for the winter. I got a letter from Ada the other day. I guess Thomas is proud of his big girl.

I haven't seen any one from home except Charles Washington. He is over here now somewhere. There are only four of us here together from home, that's Shannon, Mitchell and Faucett and myself.

Don't send me anything to eat for Christmas, because I can get it over here. I get all of my tobacco from the company and at the Y. M. C. A. I can get cigarettes, candy, cake, jelly, chewing gum and other things. We also have a store where we can buy anything a soldier can wish for. That's why I don't want you to send me anything to eat. But you can send me papers, books to read, also some pictures to look at before going off.

What is George Mathews doing? Tell him I am standing on the top waiting to go over. Ask him if I shall wait till he comes, or shall I go over. Ha! Ha! I can not tell you what my duty is over here. The duty is what ever order is given to a soldier.

Give my regards to Miss Jennie F. Grassly, also the pupils of the David Prince school.

You won't know me when I come back. I am getting so big and fat and with my suit on. This is what you call French money 1 franc, 20c; 5 franc 1c; 50 centimes, one dime; 5 centimes, 1 cent; 100 francs, \$20.

Your money will certainly get away from you if you don't know how to count it.

Well, I will close. Regards to all.

Your loving son, Pvt. C. E. Wright, Co. B, 23d, 806 Stev Br., A. P. O. 701 A. E. F., France.

From Eugene Carter

Daniel W. Carter of 623 E. Henry street is in receipt of the following letter from his son, Private Eugene Carter, now in France:

Dear Father: Am writing you these few lines to inform you that I am all O. K. and making it all right. Hope all the folks at home are well and not working too hard. It has been some time since I wrote to you last but I thought it would be a good idea to write this letter, for I know you are anxious to hear from me.

It has been quite cold here the past few weeks and we have had quite a lot of rain. This is an interesting country and I will have a great many things to tell you when I get back home. Give my best regards and tell them I would be glad to hear from them. Hoping it will not be many months before we meet again, I am,

Your son, Eugene, Co. A, 366th Inf., A. P. O. 766, A. E. F., via New York.

Russell Miller Writes to Sister

Somewhere in France, October 23, 1918. Froma Miller, Murrayville, Ill.

Dear Sister: A few lines to you tonight. I am fine and enjoying the best of health. I like France fine. There are four of us on detached service in a small city. We are all from Morgan county. Rodgers of Waverly, German of Lynaville, Wilding of Sinclair, and myself. Wilding and I have an ambulance and team and Rodgers and German. We keep the mules in a small shed and bunk in the ambulance. Did you all get the card I sent for a Xmas box. I can't send much of anything home from over here except cards. Sent

Esther one yesterday and mother one today. We got paid Saturday. Got it all in French money. I had 97 francs and 50 centimes coming to me after my \$15 allotment home. Have the folks got their allotment for August and September? 97 francs and 50 centimes is \$19.50 in our money. Hope the speaking at the church was a success for the 4th Liberty Loan. I have got quite a few letters. I have got two from mother, 4 from you, one from Freddie, 7 from Esther and one from Marie Fuqua, Gertie Lashmet, Shad and Edgar Morris. I have never seen any of the boys except what came over with me. I sure wish you could have been here in the city today. It was market day. Every Wednesday is market day. All the shops hang out their goods for sale and all the country people come in with their produce for sale in their ox-carts or in small donkey carts and then begins the bargaining and buying and selling. They bring in calves for sale, pigs, chickens dressed. They always ask more than they can get so they can talk and bargain a while before coming to terms and of all the French talk and rattling of wooden shoes braying donkeys and bellowing of cows, calves and oxen it takes place on market day. They always drink wine and stay all day on market day. The dry goods people and butchers even have their goods hung outside. Will tell you all about the custom of the people over here when I get home. How is Gerald? Is he still playing horse and claiming old Prince? I will close.

Love to all. As ever your brother, Wag, Russell N. Miller, Ambulance Co. 336, Sanitary Train 309, American E. F., 84 Division, A. P. O. 905, France.

## MORTUARY

DeFreitas.

Joseph DeFreitas, aged 80 years died at his home 724 West Lafayette avenue at 12:30 this (Wednesday) morning of pneumonia.

For several years Mr. DeFreitas was in the grocery business in West Lafayette avenue, but retired several years ago. He was born in the Island of Madeira and came to this country when a small boy. He first went to Waverly where he lived for some time, later coming to Jacksonville, where he has resided for several years. He was married in this city to Mary Smith, who survives him together with one brother, Sebastian DeFreitas and three children, Mrs. George Day, Mrs. John Fernandes and Joseph DeFreitas.

Mr. DeFreitas was a veteran of the Civil War, having served as corporal. He was a member of the Northminster church and the Portuguese Lodge.

The remains were removed to the Gilliam undertaking parlors. Funeral arrangements have not been completed.

## PRIZES FOR THE BEST SEED CORN

There Will Be a Big Exhibition of Illinois Varieties at the Chicago Stock Show, Nov. 30 to Dec. 7.

Two months ago the State Corn and Dense, through its food production and conservation committee, began a campaign to induce farmers to select seed from standing corn in the field. The result of this campaign is to be shown at the International Livestock Exposition, to take place at the Union Stockyards, Chicago, Nov. 30 to Dec. 7.

In connection with the livestock show will be the Illinois Seed Corn Exhibit. The seed corn administration of the State Council of Defense has arranged for space and has offered \$1,500 in prizes for the best ears of seed corn produced on Illinois farms this year.

For purposes of classification the state has been divided into three zones—northern, central and southern—and prizes will be awarded for the best exhibits in all classes for each of these zones, beside the general championship prizes for the whole state. The southern boundary of the northern zone is the south line of Henderson, Warren, Knox, Peoria, Woodford, Livingston and Iroquois counties. The southern zone has as its northern boundary the north line of Madison, Bond, Fayette, Effingham, Jasper and Crawford.

Prizes of \$1, \$2, \$3 and \$4 will be offered for the ten best ears each of Pride of the North, Minnesota No. 13, Silverqueen, Funks Ninety Day, Reid Yellow Dent, Boone county, Johnson county, Leaming and Silverking corn and for any other variety of yellow or white corn not named.

Prizes of \$20 will be given for the best ten ears of white corn and the best ten ears of yellow corn in the state regardless of district, and the best single ear of corn in the whole state will carry off the state championship prize of \$20. The best ten ears will be awarded a \$50 prize.

There will also be prizes of \$10, \$15, \$20 and \$25 for the best seed corn in bushel lots from each zone and a state prize of \$50 each for the best bushel of white and the best bushel of yellow corn in the state, fifty ears to be considered a bushel.

Exhibits should be sent, express prepaid, to the Seed Corn Exhibit, International Livestock Exposition, Union Stock Yards, Chicago, with the owner's name attached inside the package. They must arrive before Nov. 30.

No entrance fees will be charged and all exhibits remain the property of the exhibitor.

Folders giving details of the classes and rules for entry have been sent to representatives of the Food Production and Conservation committees in all counties of the state, and they may be secured by writing H. Heide, secretary of the International Livestock Exposition.

The boys will be coming back from the war before long and they will want good, warm overcoats. Why not get yours now—

\$15.00 to \$40.00

T. M. Tomlinson

The 100% Pure Wool Store

## RED GUARDS STILL ACTIVE IN AUSTRIA

VIENNA, Nov. 26.—(By the Associated Press.)—Preparatory to the public session of parliament tomorrow the front door and windows of parliament have been repaired and the last vestiges of the glass broken by shots of the Red Guard Nov. 12 have been removed. A plot has been discovered by which the Red Guard intended to break up the republic and declare the rule of Bolshevism today, beginning with a general shooting up of the city. There is felt that danger is still imminent here.

## HEBREW FESTIVAL BEGINS THURSDAY

New York, Nov. 26.—Chanuka, the Hebrew festival of light, which begins Thursday and lasts eight days, will be celebrated wherever Jewish soldiers and sailors are stationed the Jewish Welfare Board announced tonight. The board appointed tonight that this year Chanuka will not only serve to commemorate the victory of the Maccabees over King Antiochus and Syrian ruler 2100 years ago, but also the victory just achieved by the entente allies over German Kultur.

## INVESTIGATING SAVINGS IN WAR APPROPRIATIONS

Washington, Nov. 26.—Congressional investigation to determine what savings of war appropriations will result from the sudden change from war to peace will be begun next Monday by a house subcommittee headed by Representative Shirley of Kentucky, committee chairman. Heads of all government departments will be called as witnesses, Mr. Shirley said.

In announcing the hearings tonight, Chairman Shirley said that the main purpose would be to determine what part of appropriations that have been made by congress are yet unexpended and to have this money transferred to the general fund of the treasury.

## GENERAL ALLENBY RETURNS TO EGYPT

Cairo, Egypt, Nov. 26.—(Havas)—General Allenby, who commanded the victorious Allied troops in Palestine and Syria in their operations against the Turks has returned to Egypt from the battlefield. The general followed by his staff made his formal entrance into Cairo today immense crowds acclaimed the officers along the entire route.

## ARRANGE TO USE BRITISH TRANSPORTS

New York, Nov. 26.—Altho the British government may be compelled to use virtually all its available transports for return of its own and colonial troops, arrangements for the early transportation home of approximately 40,000 American troops on British ships have been effected. It was learned tonight in authoritative British quarters. This includes 12,000 who have been training in England and who have already embarked home on British transports.

## WILL DINE YANKS.

Paris, Nov. 26.—Every family in Nice will have an American soldier as its guests for dinner Thanksgiving Day. A religious ceremony at the American church at Nice has been arranged.

## Why the Estate Hot Storm Eclipses all Others

The interior arrangement of this wonderful heater—shows why it is a wonderful heater. The outward appearance of the Hot Storm is that of an ordinary stove—but inside is housed a marvelous heating system—built just like a hot air furnace. It radiates heat upward, downward and every which way and continually shoots out an enormous volume of pure hot air into the room.

Half to three-quarters of all heat generated in the ordinary stove is wasted—shot up the chimney. In the Estate Hot Storm the loss of heat is reduced to the minimum. The Little Furnace blocks the upward rushing heat, absorbing it and throwing it back against the radiating surfaces of the stove proper. This results in an amazing saving in fuel—a saving so great that your Estate Hot Storm will pay for itself in a few seasons. And after that it will pay you.

## CELEBRATED GOLDEN WEDDING ANNIVERSARY

"Uncle Jack" and Mrs. Osborne were the recipients of a number of gifts in honor of Occasion. Have Always Rejoiced in Jacksonville.

In the evening of Nov. 26, 1868 at the home of I. S. Hicks on the southwest corner of College Ave. and Erie street, the wedding of Mr. Hicks, daughter, Mary Augusta and John T. Osborne took place. The officiating minister being, Rev. H. W. Osborne, grandfather of the groom and J. T. being the only one of the grandchildren ever married by the old gentleman.

Have Two Sons. The passing years have dealt kindly with the worthy couple and the lines have fallen to their pleasant places. Their home has ever been a happy one and blessed with three children. A little daughter passed away in early life but two sons, Ernest C. and Perry R., remained to glorify the paternal home. The boys both grew to manhood and walked in the steps of their worthy father and are today honored and respected and hold positions of importance. Ernest lives in Los Angeles and Perry in New York but they never forget the dear home in Illinois and often send them tokens of love.

Ernest has a daughter, Marian.

na, aged fifteen, and a son younger. He is named for his worthy grandfather and also goes by the same affectionate nickname, "Jack". Perry has a son, Ernest Hicks, eighteen years of age. Bager to serve his country as enlisted soon as he could but too late to see actual service across the sea.

Mr. Osborne has three sisters living: Mrs. E. M. Hockaday and Mrs. Maggie McWilliams of Tacoma, Washington, and Mrs. W. E. Grant of Hardin, Mo. He has four brothers, C. A. and W. D. Mo., and N. Osborne.

Mrs. Osborne has two sisters, Miss Fannie Hicks and Mrs. Kate Hollinger of South Prairie street, and one brother, Isaac of South East street. Mr. Osborne was born in a log cabin standing on the farm now owned by Andrew Harris. He passed his early life on the farm and obtained a good common school education and started in the Jacksonville business college then in the third story of the building now occupied by Messrs. Andre & Andre but he had hardly gotten warm in his seat before a man from the east part of the county came for him to teach school. Jack didn't want to do this and remonstrated and finally put his figure so high he thought he was safe but he was accepted and soon began and made a fine success.

Many Years of Business.

He preferred town life however and at first conducted a grocery near the building now occupied by the Allcott drug store and later disposing of this he has devoted himself to the sale of dry goods and in without question one of the most popular clerks in the city.

For many years his home has been at 845 North Church street and there the current of their lives has run placidly and smoothly. Mrs. Osborne has been in poor health for a number of years and has ever had the devoted attention of her faithful husband who has been unremitting in his attention and care.

Their has been a beautiful life with the respect and esteem of a large circle of friends and acquaintances and none know them to esteem them.

Prominent in Oddfellowship. In Odd Fellow Circles Mr. Osborne has ever been a force. He for the past few years he has been unable to attend meetings very much owing to his wife's ill health but his heart is ever with the three links. He is a faithful member of the Christian church while his wife is affiliated with State Street Presbyterian church but both serve the same Master. They are enjoying the evening of life in a beautiful manner.

## A TEXAS WONDER

The Texas Wonder for kidney and bladder troubles, gravel, diabetes, weak and lame backs, rheumatism and irregularities of the kidneys and bladder in both men and women. Regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of \$1.25. One small bottle is two months' treatment and often cures. Send for sworn testimonial. Dr. E. W. Hall, 2926 Olive Street, St. Louis, Mo. Sold by druggists.—Adv.

ner and are happily awaiting the time when they will have no more need of earthly things which their friends hope will be many years hence.

The presence of the "du" made it impossible to get up a surprise party for the worthy couple but their intimate friends couldn't let the occasion go by without some token of esteem so a number of old friends and neighbors were invited and took it as a privilege to be counted in on a token for "Jack" and last evening half a dozen friends and relatives walked into the house and took the worthy gentleman wholly by surprise and with a few remarks in token of the high esteem in which Mr. and Mrs. Osborne are held the speaker of the occasion presented the worthy couple with a gold certificate.

Receive Number of Presents.

Mr. Osborne responded in a feeling manner telling of the great value he set upon the regard of those whom he so highly valued. He told of the years that had elapsed since he had known his friends and of the regard in which he held them. He modestly disclaimed for himself any of the good things said about him and only aspired to be worthy of the words said to him and his wife.

A number of presents were received by the worthy pair from neighbors, fellow clerks, relatives and others. Mr. Osborne's present to his wife was a ten dollar gold piece in a handsome case. The whole affair was most delightful the only regret being that a few hundred friends who would have been so glad to be there couldn't be present.

The management of the affair also apologized to a few hundred who would have regarded it as a privilege to be counted in on the gift but the time was so short and the cares of business so pressing it was impossible to see only a few and those seen regarded it a privilege to be among the number.

A letter was received from Luther Mason of Albert Lea, Minnesota, and a former member of the family and whose parents Robert Mason and wife celebrate their golden wedding Nov. 26th. Also among other presents was a fine cake the gift of G. A. Muehlhausen. On the top were the figures 1868; next came a U. S. flag, two hearts entwined and the figures 50 conspicuous between; two gold leaves on the sides; three links, the All Seeing Eye and at the bottom the figures 1918.

## The Farmer

Do you know that the man with 40, 80, or 160 acres of land has one of the best and safest investments in the world? He is the Chief Executive and Personal Representative of his estate and his table groans with the luxuries that the millionaire in his palace would envy; for there is the fruits in season, and vegetables without limit or stint and cereals the whole year around, yellow legged chickens, turkey, pig and lamb and beef ever sweet and fresh with a flavor that cannot be bought in the best market, yet it is the farmer's daily fare.

There are no certain hours that he must be at his post or be considered tardy, there is a constant change of scenery and work that keeps him fresh and vigorous; there is time for study and recreation and he can go to town, a picnic, or to the Fair without the thought of his business stopping or being neglected.

He has a safety in his investment that there is in no other business for his land cannot burn up or blow away or rust out but gets more valuable with time and cultivation.

If you want a farm, come and see me.

S. T. Erixon

Ill. 56 807 Ayers Bank Bldg.

## ASHLAND BOY IS KILLED IN ACTION

George Pettit Makes Supreme Sacrifice in France—Other Ashland News.

Ashland, Nov. 26.—Mrs. O. N. McDaniel entertained the Ladies Aid meeting at her home here last Thursday evening.

Word has been received by relatives here that George Pettit, who was killed at the battle front, This is indeed sad news to the many friends as well as to the relatives of the young man. John Nix is visiting his daughter at Cass Siding this week.

Ashland went over the top in the War Work Drive last week. The amount assigned to Ashland precinct was \$3,200 with the request that 50 per cent of that amount be raised if possible. The committee not only raised the first quota, but also the 50 per cent and \$7.41 over all.

The total amount of subscription was \$4,932.41, and the maximum quota for Ashland was \$4,845, leaving a balance of \$87.41.

There will be Thanksgiving services at the Christian church next Thursday.

There will be a sunrise prayer service, and in the evening at 7:30 Rev. Mr. Bell of the M. E. church will preach the Thanksgiving sermon.

S. N. Zahn and family have moved into the David Middleton residence which Mr. Zahn recently purchased.

Mr. and Mrs. Samuel Ray visited Thursday and Friday with their son, Earl Ray and family at Pleasant Plains.

Edgar Dyer is convalescing after a severe attack of influenza. John Baker of Yatesville, made a business trip to Ashland Saturday.

## DEATHS

Rothhouse.

Word has been received in this city of the death, from pneumonia following influenza, of Earl Rothhouse. The deceased was a member of the Jacksonville Cigarmakers Union, but recently had been working in a cigar factory in Jacksonville. He died in Mt. Sterling this afternoon and interment made in the cemetery at the place.

McGinnis. Mrs. Francis McGinnis died at her home 120 East Dunlap street at 12:30 o'clock Tuesday afternoon of pneumonia. She was stricken ten days ago with influenza and later pneumonia developed which was the cause of death.

Deceased was the daughter of Mr. and Mrs. Robert McCarthy of Winchester and was about 26 years of age at the time of death. When she was six years of age her mother died. She then made her home with Mrs. James McBride, where she was given every opportunity and all of the loving care that a mother could have bestowed.

She made her home there until June, 1913 when she was united in marriage to Francis McGinnis. To this union two children were born, Mary Helen and Robert, who with the husband survive.

She also leaves seven brothers and three sisters: Harry, William, Lee, Harvey, Clyde and Russell McCarthy, Mrs. Charles Pearson, Roy Heaton and Mrs. Weston Andel, all residing in the vicinity of Winchester.

Mrs. McGinnis was a member of the Church of Our Savior. She was devoted to her home and was a young woman of strong Christian character and her going will be mourned by many friends. Her husband was stricken with influenza at the same time that she was taken ill and is still confined to his bed. The little children thus left motherless are aged two and four years and so the death seems particularly sad.

No arrangements have been made for the funeral.

Holley.

William L. Holley, aged 29 years, died at the Red Cross Emergency hospital at 2:30 o'clock Tuesday afternoon. He had been in poor health for a number of years. About eight days ago he was seized with influenza which later developed in pneumonia and his frail constitution was unable to withstand the disease and the end came suddenly.

Deceased was the son of Mr. and Mrs. George Holley and was born and reared in this city. He earned the cigar makers' trade and was employed at the McCarty-Gebert factory.

Mr. Holley was a member of the Cigar Makers' Union and of the Loyal Order of Moose. He was a young man highly regarded in a large circle of friends and always willing to aid anyone in distress or any worthy cause.

He is survived by his father and three brothers, John and George of Arnold, and Henry of San Fernando, Calif., and one sister, Mrs. Charles Huett, of LaSalle.

The remains were taken to the undertaking parlors of J. G. Reynolds and prepared for burial. The funeral services will be held at Jacksonville cemetery at 10:30 o'clock Thursday morning.

## RED CROSS WILL CARE FOR SICK U. S. PRISONERS

WASHINGTON, Nov. 26.—Sick and wounded American soldiers who were held prisoner by the Germans and who are not strong enough to be moved at the present time will be cared for by the American Red Cross thru Alfred Ney, a Swiss neutral delegate delegate with large German experience and acquaintance. A cablegram received today at Red Cross headquarters here from Paris said it is planned to place all these Americans in a central hospital and, if possible provide American medical attendance for them.

### BLUFFS WOMAN DIED OF INFLUENZA

Mrs. John Conrady Passed Away After a Brief Illness—Active in War Work—Bluffs News Notes.

Bluffs, Nov. 26.—Mrs. John Conrady, aged 29 years, passed away at her home early Monday morning, after an illness of two weeks of influenza. She was the eldest daughter of Mrs. Mary Beagles and grew to womanhood here where she leaves a large circle of friends.

She was a devoted wife and mother and an ideal neighbor and friend. During the long, hot summer afternoons of last July and August, Bessie as her friends loved to call her, was a painstaking and careful instructor in the Junior Red Cross sewing club, where she assisted in teaching the little girls to sew. Her pleasant smiles and many acts of kindness will ever be remembered by those with whom she came in contact. Besides her husband, she is survived one daughter, Ruth, aged 8 years, and one son, Charles, aged 4 years; also her mother, Mrs. Mary Beagles and two sisters, Mrs. Gus Albers and Mrs. Holpin Denton of Bluffs. She was a member of the Royal Neighbors and of the Lutheran church.

Funeral arrangements have not been completed. Mr. and Mrs. Alvy Young and three children of Griggsville spent Sunday with Horace Sappington and family.

Guy Sawyers, son of Mr. and Mrs. James Sawyers, who is running out of Beardstown as a fireman on the C. & Q. R. R., was married Monday of last week to Miss Verna Cowland of that city. The marriage taking place in St. Louis. They have returned to Beardstown where they will reside.

The influenza situation remains unchanged and churches and all places of public gatherings remain closed, yet the school is in session but the State Board of Health rules regarding the conduct of schools are not observed. The death toll from the epidemic thus far for Bluffs and vicinity has been six, three of whom have been mothers of small children.

Mrs. William McCullom was called to St. Louis by the illness of her grandson, Thomas McCullom, Jr.

Misses Belle Vannier, Blanch Hinthorn, Zeta Meriss, Mesdames Carl Ritter and Marie Hale, teachers assisted by pupils, have just completed 110 booklets to be sent by the Junior Red Cross to convalescent soldiers in hospitals overseas. Each booklet is a gem and contains one complete story which has been carefully read and approved by the teacher. These are neatly bound and each outside cover contains a beautiful engraving or a carbon print. On the inside covers are pasted neat little verses, poems, wit, fun, etc. to cheer and comfort the war's unfortunate ones. The sizes are 7½x10½, 11½x14 and 8½x12½.

While much of the work was done by the pupils the designing and selection of stories was the work of the teachers who were painstaking and thoro in the work as the finished booklets evidence.

**YATESVILLE**

About all you can hear around here now is the boys playing ping pong in their wagon beds husking corn.

J. C. Yancy of Bloomington visited his parents here Saturday evening and Sunday.

Clarence Yancy and family of Philadelphia and Mrs. Dollie Means and Granddaughter Louise spent Sunday with Henry Yancy.

Mrs. Ollie Moore visited her mother, Mrs. Long, Sunday in Ashland.

Mrs. Wood visited her son, Almo Wood and family Sunday.

Walt Hardy and wife and Mrs. Harris spent Sunday in Jacksonville.

Herschel Williams of Camp Taylor, Ky., was calling on some of his old neighbors here last week.

Mike Cashin and daughter Margaret, went to Murraville Saturday to attend the funeral of Mr. Cashin's cousin's wife, Mrs. McGraw.

Harry Hams of Sinclair visited his brother, D. N. Hams, Sunday.

Mr. and Mrs. John Henderson are the proud parents of a baby girl, born a week ago.

A few of Mrs. Ollie Moore's neighbors went to see her last Saturday evening, taking with them fresh oysters and the trimmings that go with them, and soon all were enjoying themselves feasting.

**ARCADIA**  
J. J. Lacey is having some extensive work done on his dwelling this week.

Frank Boatman and family are all sufferers from the influenza.

Charles Clark and father and Ted McFadden have returned from a duck hunt down on the river, and from the appearance of their game bags there is nothing left down there to shoot at.

The Arcadia correspondent is husking corn for J. J. Clark, altho he still makes his daily rounds.

Mrs. Branch Wade and family of Chapin spent Sunday at the home of Oral Rexroat.

The school here will open again on the 25th inst. It has been closed for the past five weeks on account of the influenza epidemic. It is hoped that nothing will occur to interfere further with the school term.

### CONCORD

The Chapin Christian church has extended a call to Minister C. G. Cantrell, and he has accepted. He will begin his new work on January 1st. Brother and Sister Cantrell have made many warm friends here during their two years residence, and it is with profound regret that they leave. The local church has been with out regular preaching for some time and they are to be congratulated on securing Brother Cantrell. The local church has not had any services during the epidemic of influenza and no arrangements have been made yet for a successor to Brother Cantrell. Services are announced for next Sunday at eleven o'clock. After the regular service the official board will meet to take suitable action.

All the cases of influenza here are doing as well as can be expected.

Among those who went to Jacksonville Monday were Minister Cantrell and wife; Mrs. Adelia Cooper, and Mrs. C. O. Bayless, A. J. Wheeler and wife and Mrs. Ethelyn Plank.

Minister Cantrell was in Springfield on Thursday and attended a laymen's meeting and the next day was in attendance on the men and millions movement meeting in Decatur. He reports a very pleasant and profitable time spent in these meetings.

James Jumper of Sinclair has come to spend the winter with Mr. and Mrs. L. F. Bayless. He will be of valuable assistance in the care of Mr. Bayless, who has been afflicted with paralysis.

A. H. Bartelheim has been making some valuable improvements on his farm north west of here. A new cow barn has been built which will be a big help to his head farmer, William Goffnitt.

J. P. Yeck who bought the George Wooff farm a year ago has had the house repainted.

E. F. Plank has sold his farm to J. E. Whorton and will move to a farm he purchased near Joy Prairie station.

Marion Henderson is very busy these days at Myers Brothers clothing store in Jacksonville, where he started to work several weeks ago. He will be pleased to see his friends and acquaintances from this section when they happen to be in town.

Chester Brockhouse and family and his sister, Mrs. Clyde Taylor, motored to Monroe in Cass county, on Sunday, to visit another sister and family.

T. J. Wilson and family were city arrivals from Nortonville yesterday.

### RUB ON SPRAINS, PAINS, SWELLING

Don't Suffer! Relief Comes the Moment You Rub With "St. Jacobs Liniment."

Don't stay crippled! Rub this soothing, penetrating liniment right into the sprain, ache or strain, and out comes pain, soreness, stiffness and swelling.

Nothing else penetrates, heals and strengthens the injured muscles, nerves, tendons and ligaments so promptly. It doesn't burn or discolor the skin and can't cause injury. Don't suffer! Get a small trial bottle from any drug store now—limber up! Rub the misery right out. A moment after "St. Jacobs Liniment" is applied you can not feel the slightest pain or soreness and you can go about your regular duties.

"St. Jacobs Liniment" conquers pain. It has been used effectively for sprains, strains, soreness and stiffness for 60 years—six gold medal awards.

### NERVOUS PROSTRATION

May Be Overcome By Lydia E. Pinkham's Vegetable Compound—This Letter Proves It.

West Philadelphia, Pa.—"During the thirty years I have been married I have been in bad health and had several attacks of nervous prostration until it seemed as if the organs in my whole body were worn out. I was finally persuaded to try Lydia E. Pinkham's Vegetable Compound and it made a well woman of me."

I can now do all my housework and advise all ailing women to try Lydia E. Pinkham's Vegetable Compound and I will guarantee they will derive great benefit from it."

—Mrs. Frank Fitzgerald, 25 N. 41st street, West Philadelphia, Pa.

There are thousands of women everywhere in Mrs. Fitzgerald's condition, suffering from nervousness, backache, headaches, and other symptoms of a functional derangement. It was a grateful spirit of health restored which led her to write this letter so that other women may benefit from her experience and find health as she has done.

For suggestions in regard to your condition write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of their 40 years experience is at your service.

## FULFILLMENT OF BIBLE PROPHECY

Divine prophecy outlines the future of Christianity from the days of Jesus on down to the present time.

These predictions foretell the coming of "great tribulations"; foretell that "after the tribulation" the true understanding of the Christian religion would be lost to all the world for centuries and then recovered by Christian Science in A. D. 1866.

The fulfillment of these prophecies is made very plain to readers of

**The Golden Hopes of Men**

This helpful book answers many questions of great interest relating to modern Christianity. Order a copy; if not found valuable, return it and your money will be refunded.

Christians, Jews and Gentiles have read the evidence presented and about one book in a thousand is returned.

## DELIGHTED IN HIS FREEDOM

Youngster's Chief Enjoyment of Vacation Came From His Defiance of All Conventionalities.

The best sort of vacation and the only kind that really is a benefit to the one taking it, according to Lewis Weisenberger, is the one on which all conventional rules of conduct are broken. To enjoy a vacation one must do absolutely as he pleases, Mr. Weisenberger continues.

In proof of this contention Mr. Weisenberger tells the following story on a young lad with whom he hibernated in the wilds of Michigan for several weeks this summer.

The campers had taken a large supply of towels with them, as bathing was expected to feature the holiday events. On arrival at camp each member of the vacation party received his allotment of the towels and the lad was duly included in the division. On the second day of the vacation week Mr. Weisenberger was surprised to find the young lad's supply of towels packed securely away in one corner of the cottage, thus far untouched. He immediately summoned the lad and inquired whose towels he had been using, since his own supply was undiminished. He was not a little taken back by the lad's reply: "Aw, I didn't wash my face yesterday."

Even with face unwashed and towels untouched, the young barbarian probably enjoyed the vacation trip more than did any other member of the party, Mr. Weisenberger says. And the reason for the lad's enjoyment, he believes, is the fact that he violated all rules of personal etiquette and lived one entire day with his face innocent of ablutions.—Indianapolis News.

## REALLY NO TROUBLE AT ALL

Possibly American Colored Cook and French Baker Belonged to the Same Lodge.

The American Red Cross canteen at Dijon, France, boasts the possession of Tom, a colored cook from the state of Georgia. Saturday nights Tom makes "something special." The last Saturday in August the special was chocolate layer cake. Thomas had no suitable oven, and so without the aid of a single word of French he induced a nearby French baker to loan his idle ovens.

"How did you do it, Tom?" Miss Field, the directress, asked him.

"Oh, I jes' told him that these here boys of ours would certainly appreciate it if he would bake a little cake for 'em. An' he didn't make no fuss 'bout it. 'Certaintly,' he says, and so I puts the cakes in the oven, an' that's all there is to it."

"Tom," replied Miss Field, "you are a wonder."

That is what our boys said when they ate the cake.

### Deserves a Better Job.

We climbed into a motor accompanied by Marcus, Marcus, by the way, is one of the characters of the unit, Major Theodore Waters writes in the Christian Herald. He is more than that; he is an institution, is Marcus—a product of the peculiar stress through which Jerusalem has passed. He says he is 14 years old. But he looks much younger and acts much older. He can read and writes English, Russian, French and Arabic, and he passed through all the regimes, Turkish, German and English, and he has taken toll of each in the acquiring of languages and baksheesh. Yet, strangely enough, he is both industrious and honest, and is the sole support of his widowed mother. If you would know what he looks like, imagine a gnome about three and a half feet high, as broad as a brownie and as brown as a berry, with two big dark eyes that shine out of the middle of a perpetual smile.

### New Motive Power for Barges.

In a novel English method of propulsion for canal barges, a small air pump driven by the engine creates a vacuum in the chamber containing the propeller, and this draws the water above the level of the canal. This arrangement is claimed to lessen the erosive effects making increased speeds practicable. A barge of 32 tons was prepared for trial by mounting on it an old motor car engine of 18 to 20 horse power, and from preliminary tests was expected to run about five miles an hour when loaded, and eight or nine miles when empty.

### Heroic Frenchman.

Lieut. S. Coulter, French ace, twenty years old, and who has brought down 17 Boche planes in France, has given onlookers thrills by his nifty performances at all fields in the United States. He came over from France a few weeks ago as instructor. His favorite pastime is to execute all the great stunts, such as spinning nose dives, loops and Immelman turns with 200 feet of the ground. The average flyer, even if expert, prefers to try this game several thousand feet higher, where he is safe.

### Golfing Prospects.

An artillery officer, who had been a fairly well known golfer and a keen enthusiast, was looking out across a rolling plain in France that only recently had been heavily pounded by shell fire.

"I've seen some well trapped courses," he said, "but I must say this is the best bunkered course I've ever run across. There's a pit every 20 feet. Par here must be about 200."

## AVIATORS MUST DO "STUNTS"

Fests That Seem Foolhardy Really Are Most Necessary in the Training of Airmen.

Before the war there was, says Edwin Bidwell Wilson in the Yale Review, much criticism of professional exhibiting aviators who, to thrill spectators, put their machines into all sorts of dare-devil attitudes and frequently themselves came suddenly down to death. In fighting, the ability to do all manner of "stunts" is essential. The more completely a pilot can control his machine, the more easily he can toss it hither and thither—cutting figure-eights, looping the loop, nose diving and tail diving—the better chance he has for his own life and the more certain he is to get his opponent. Sad as are the continual reports of death by accident at our aviation training camps, we may rest assured that for an untrained pilot to go overseas to the front is almost certainly fatal, and that for every life lost in training, many are saved in fighting. Fortunately airplanes today are so much stronger structurally and so much better equipped and controlled than before the war, that this necessary "stunting" in school and on the field is no longer really dangerous—the real danger now lies in physical inability to "stunt." Not only must the pilot of the single-seated fighting scout be thoroughly expert on the wing, he also must be a crack shot with his machine gun. Small wonder that it takes months and months to train an aviator who may develop into an ace.

## HAS GOOD WORD FOR CROW

Australian Writer Points Out Occasions When Bird Becomes a Real Benefactor to Mankind.

There are those who say that the crow deserves no mercy. There is no other pest eradicator, imported or otherwise, doing its bit so patriotically as the self-same crow. In Bannanland, Australia, says the Sydney Bulletin, the ravages of the sheep-maggot fly must make a loss of hundreds of thousands of pounds worth of jumbuck every year, about the only difference in one season being that the damage is probably greater than the last. Were it not for the bird whom no one has a good word for, the fly pest would soon duplicate itself with losses to sheep-owners increased accordingly. Every dead sheep or piece of offal in the bush is the depository of the eggs of unimagined numbers of prospective sheep destroyers. Just about the time that the grubs are the size of a grain of rice, and a few days before they burrow into the soil, where they remain for about 15 days before coming forth, as a developed sheep-maggot fly, Brother Crow spies out the colony. Then he sends the glad tidings by wireless system, and all the family within range hurries to the banquet. When it is over a supply of grubs for the next meal has to be found elsewhere.

### New Explosive.

The Oil, Paint and Drug Reporter mentions a new explosive being tested by the government which will save a considerable amount of glycerin. It is called nitrobyronol and is the product of Dr. Byron E. Eldred. It is claimed that it blows a chamber twice the size of that caused by T. N. T. (trinitrotoluol). In the manufacture of nitrobyronol neither nitroglycerin nor toluol is used. It is a hydrocarbon obtained by a by-product in coke-oven processes.

It is estimated that 50,000,000 pounds of glycerin is used in American industrial concerns, and a big saving in this important material, now growing scarce, can be effected through the employment of nitrobyronol.

If a shortage of glycerin should become imminent, the Oil, Paint and Drug Reporter believes that the government would promptly start in to manufacture nitrobyronol.

### The Least of These.

It is not the support of a nation buying billions of dollars' worth of Liberty bonds, breaking bottles over the sterns of new ships, knitting socks or cheering us in the movies that brings home to us the magnitude of our trust.

It is all fine, but it is all too big for any one man of us to grasp. But we appreciate how great our trust is when we hear that the folks have had two pounds of sugar in six weeks, that the lady next door let her bread burn in the excitement of reading our last letter, and that the lady next door to her is working in an office and keeping the children in school while her husband is over here.—The Stars and Stripes.

### Forced to Move.

"We've got to have a bigger house."

"Outgrown the present place?"

"No. We have rooms enough, in fact more than we need, but the collar is too small."

"What's the idea?"

"We can't store six tons of soft coal in anything less than the basement of a church."

### Hospital Humor.

In an American hospital in France a lieutenant who had lost both his legs in battle received a package from his wife. In it were six pairs of socks. Raising himself as best he could to the cot, the lieutenant said:

"Say, boys, what am I going to do with these now?"

"I guess you're just out of luck," was the reply.

## IDEAS ABOUT AGE ARE WRONG

Writer Complains That World Think of All Men As If They Were Young.

It is the fashion nowadays to speak of a youth of eighteen as if he were a child, and of a man of thirty-five as if he were yet growing. The ancients had no such ideas, and it has taken the lack of seriousness of the past three or four generations to spread them as they are. I often remember with pleasure a reference of Guy Patin—the charming literary physician of the seventeenth century—to a M. Lenglet, a man of twenty-six, professor of rhetoric at the College d'Harcourt, rector of the Paris university. Guy Patin says a man of twenty-six, as he might have said a man of forty-six; there is not the least intention of contrasting this man's years with his high position. William Pitt was not supposed either to be a crude youth, and the French revolutionists—most of them men between twenty-five and thirty-five—were never taxed with immaturity.

We think of all men who are not elderly as if they were young men, liable to the mistakes of young men, and this not infrequently leads them to act as if they really were very young men. But most lads of seventeen are clear about their ethical code, and who is there who has gathered some experience, and has not found that the possibility of foregoing the cleanliness of their souls is more unpleasant to them than to most of their seniors?—Ernest Dimmet, in Atlantic Monthly.

## JUST PART OF DAILY GRIND

Wounds and Death Mere Incidents to American Soldiers When Duty Sounds Its Call.

There were four of them, and their mission was to transport a machine gun to a wooded hilltop commanding the enemy lines. It was not very far to look at. But they had to crawl the entire distance under fire. All night long they crawled, except when they froze into stillness under the light of the star shells. Before they were halfway there, two of them were wounded and had to work their way back to the lines over the same perilous ground. The other two kept on. The danger increased as they approached the top of the hill. Both of them were bleeding from flesh wounds. Both were spent with the exertion of the long ascent dragging their gun. But their only thought was to do what they had come to do. Just at dawn they rounded the top of the hill. The first thing they saw were two German officers standing with binoculars sweeping the American lines. Quick as thought, without waiting to place their gun, one "Yank" held it while the other fired. The officers went down, and the enemy guns woke up. The two boys made cover with their gun and answered the fire. Before the day had fairly broken, they had "cleaned out" the nest of enemy guns and had their own gun advantageously placed.

This is just an ordinary episode of daily life at the front.—From a Red Cross Scrap Book.

### Aerial Postal Service.

Negotiations for aerial postal service have been completed between the British and Dutch governments, and Holland is very busy making final arrangements. The journey from Amsterdam to London would take but one and one-half or two hours. The Dutch military airmen, who have been in training since the beginning of the war, are to act as pilots and the ministry of war is lending full co-operation to the scheme. On the same lines an air service between Amsterdam and Groeningen is also being arranged. Ground for large airdromes is being prepared near the Dutch metropolises.—Scientific American.

### Austrian Child-Slaves.

The report of a parliamentary committee appointed to investigate conditions surrounding child labor in Austria discovered a most deplorable condition, according to the Arbeiter Zeitung of Vienna. More than one-third of all schoolchildren are engaged in some kind of work. In some districts all the children of school age are working. Out of every 100 schoolchildren between six and eight years, 18 are at work; between nine and ten, 35; between eleven and twelve, 50, and between thirteen and fourteen, 52. Two-fifths of these children have been working from the time they were five or six years old.

### Accurate Shooting.

In France a German plane, swooping around a farmhouse, was startled and soon driven away by very accurate rifle fire. At least the firing was accurate enough to convince Fritz that he was in no safe neighborhood.

But he didn't know that the rifle was being handled by a lieutenant colonel in the American army, who, enraged at the audacity of the hostile birdman, grabbed the weapon and soon had the "supremacy of the air" in that particular locality well under control.

### One Way Out.

Two bluejackets were in the washroom washing clothes, preparatory to the weekly inspection. They were both regulars and had enlisted for four years. One of them had been in the service one year, and was rather tired of being on the station so long, and expressed his sentiments to that effect. The other, looking up at his discontented "buddie," said, "Well, if you don't like it, give three years' notice and quit the navy."

## ASBURY

Mr. and Mrs. A. B. Green and family moved into their new home on South Main street, South Jacksonville, Monday. Mr. and Mrs. Green lived on their farm for fifty-seven years.

Mr. and Mrs. William Mortimer and family moved Tuesday into their new home which they built on their farm.

## ANNOUNCEMENT

I hereby announce myself as candidate for County Commissioner subject to the Democratic Primary Election.

D. T. SUMMERS

"To help make strong, keen, red-blooded Americans there is nothing in my experience which I have found so valuable as iron—Nuxated Iron," says Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Out-door Dept.), New York, and the Westchester County Hospital. Nuxated Iron often increases the strength and endurance of weak, nervous, run-down people in two weeks' time. It is now being used by over three million people annually, including such men as Hon. Leslie M. Shaw, formerly Secretary of the Treasury, and ex-Governor of Iowa, former United States Senator and Vice-Presidential nominee, has a Tower General John L. Clem (retired), the drummer boy of Shiloh, who was sergeant in the U. S. Army when only 12 years of age; also United States Judge G. W. Atkinson of the Court of Claims of Washington, and others. Nuxated Iron is dispensed by all good druggists everywhere.

Luly-Davis Drug Co., Armstrong & Armstrong, Gilbert's Pharmacop, J. A. Ob ermyer & Son.

### MRS. SARAH COCKING KNITS REAL SWEATER

Well Known Jacksonville Woman Makes Sweater in Which She Wore the Material from the Sheep to the Finished Garment.

Mrs. Sarah J. Cocking one of Jacksonville's best known women, recently completed a sweater the like of which probably is not in Jacksonville or perhaps in the entire country.

The past summer Mrs. Cocking spent at her old home in Pike county, here she reared the sheep and sheared them. Then she carded the wool, colored it and spun it into yarn and knit a sweater. The garment is a beautiful piece of work and shows what women in the early days of the state were required to learn.

Mrs. Cocking is past 70 years of age. However, she bears her years well and is active in civic affairs in Jacksonville and is considered one of the strong characters of the community. For many years she has been an ardent W. C. T. U. worker and is living to see her early efforts crystallizing into a national movement, which promises later to become world wide.

Make your reservations today for your Thanksgiving dinner party.

### PACIFIC HOTEL CAFE

HER NEPHEW WOUNDED

Mrs. Nifong of this city has a brave nephew, Rudolph Dial, in the service and occasionally hears of what he is doing. The latest is the fact that he has been wounded twice but not very severely. The letter was written early in October and the young man was eager to get back in the ranks and take a few shots at the Boches.

### FORMER RESIDENT KILLED IN ACTION

E. A. Schoedsack receives Word of Death of Nephew, Fred W. Becker—Mr. Schoedsack Anxious About Other Relatives in Service.

E. A. Schoedsack of 832 East State street received word of the death of his nephew, Fred W. Becker, killed in action in France Oct. 9. He was 25 years old and was a member of the Red Cross. Mr. Schoedsack is anxiously awaiting news of two other nephews in service in France, Felix and Ernest, sons of Gustav A. Schoedsack, formerly a business man of this city. They are both in very dangerous service, being photographers, taking pictures of the enemy camps, from aeroplanes and have not been heard from for some time.

### MILLER BROTHERS WILL CLOSE THURSDAY

In order properly to enjoy the national holiday and give thanks suitably we shall close our grocery all day Thanksgiving.

### BAZAR POSTPONED

Announcement was made yesterday that the Brooklyn bazar and chicken supper has been postponed to a date which will be announced later.

Homemade mincemeat. Douglas' Grocery.

## NO CHRISTMAS SEALS ON SALE THIS YEAR

Instead Will be Awarded to New Red Cross Members—New Plan Agreed on Several Months Ago.

Red Cross Christmas Seals will not be sold in America this year according to the long established custom. Instead, they are to be awarded in blocks of ten to each new member of the Red Cross obtained during the "roll call" next month.

Notice of this effect has been sent by the Illinois Tuberculosis Association to each of its affiliated societies in the state. Similar notice has also been sent by the Red Cross to every local chapter in Illinois.

In former years these cheery little Christmas stickers have been sold at one cent each, and the proceeds from the sale have been used to finance the work of the national, state and local tuberculosis organizations.

During the last seal campaign in 1917 more than 16,000,000 seals were sold in Illinois and the fund has been used to do the biggest piece of tuberculosis work ever attempted in any state.

For the coming year, however, this work in Illinois and throughout the country is to be financed through a direct appropriation from the Red Cross under an agreement reached several months ago by the Red Cross and the National Tuberculosis Association as a war time necessity.

In carrying out the agreement, all the tuberculosis agencies have placed their office and field staffs at the disposal of the Red Cross in its effort to make the coming membership drive an unqualified success.

Each new member of the Red Cross obtained during the coming drive, and each old member who renews his subscription, is to be presented with ten Red Cross seals and a folder which will outline the importance of tuberculosis work both as a war time and a peace time necessity.

Whether or not Red Cross seals, or some other seal for financing tuberculosis work will be placed on the market during the holidays next year, has not been determined. In the meantime the Illinois Tuberculosis Association urges all who have purchased Red Cross seals in the past, to buy a current year's membership in the Red Cross. They will thus be assisting in the great international humanitarian work of the Red Cross and at the same time having a part in the vitally important work against tuberculosis in their home communities.

### THE FORUM PROGRAM

In answer to the many inquiries being made regarding the Forum program at the Congregational church this winter the committee wishes to state that as soon as health conditions warrant the program will begin. Present arrangements make the announcement of Chief Justice Carter of the Supreme Court who will deliver an address on Abraham Lincoln on Sunday, December 15. It is interesting to note that three of the speakers who have been invited to address the Forum are now in France. The series promises to be exceedingly interesting to the community.

### Fur Remodeling.

Last season's furs made equal to new, done under personal supervision, at lowest prices. MRS. ABBOTT, Ill. phone 881.

## O'CONNELL CASE IS CONTINUED

Man from Brown County Will Not Be Tried for Murder Until Later Date—Death of Attorney McNeff Caused Continuance Order.

A continuance was granted yesterday by Judge E. S. Smith in the circuit court in the case of Timothy O'Connell of Brown county, who is charged with murder. The case goes over to the February term. As that is not normally a term for jury trials it is possible that eventually the case may land in the May term.

The order of continuance was made by Judge Smith after statements of J. E. Hartzell of Carthage, an attorney for the defense, and R. E. Vandevanter, state attorney of Brown county, showing that Warren McNeff, who had been active in preparation of the defense, died suddenly last Saturday. They asked first for a continuance to January and Judge Smith indicated that this term of court will be concluded some time in December. The attorneys then made the request that the case go over until the next term of court.

## PRICE JEWELRY STORE CONTINUES

The jewelry business conducted by the late Charles Price will be continued uninterrupted. A large stock of holiday goods having been purchased early, are being received daily. Competent jeweler service for repair work. All goods guaranteed to be as represented.

## BUILDING BAN IS WHOLLY REMOVED

All Work Halted or Restricted On Account of the War Can Now Proceed.

Mention has already been made of the fact that the government has lifted the ban on building operations. Further information along the same line is contained in the following statement, received by the Jacksonville Engineering Co. The statement is given here for the information of those who may be interested in construction and repair work.

"All remaining restrictions on non-war construction through the United States were removed today. Building operations of any character, which were suspended by the war, now may be resumed without further permits.

"Chairman Baruch of the war industries board, announced today that D. R. McLennan, chief of the Non-War Construction section of the board, had telegraphed the order to chairmen of State Councils of Defense.

"The action taken permits all building operations of whatever character, held up in the interest of the war program, to proceed," the official announcement says.

"No further permits will be required from the War Industries Board or State Councils, through whom control over the situation in each state was maintained.

"Since November 11, with a view of assisting the industry to a complete peace basis as quickly as possible, a careful canvass has been made of the conditions in each state, with respect to building materials, transportation and the supply of fuel and labor.

"In this investigation the Non-War Construction section sought the views of the industry itself and of the State Councils of Defense. The replies received, coming from practically all the states, showed an unanimous opinion in favor of such action."

### POSTAL OFFICE CHANGE

G. H. Shutt, chief operator and auditor for the Postal Telegraph Co., was in Jacksonville Tuesday checking and transferring the local office from Miss Anna Lawson to Joseph F. Barter. Miss Lawson goes to Chicago as hotel branch office manager, where her friends wish her good luck and success. Mr. Barter, who worked for a short while at the local W. U. office this fall has had considerable experience as operator, both railway and commercial and he will endeavor to give the public the best of service.

Make your reservations today for your Thanksgiving dinner party.

### PACIFIC HOTEL CAFE

### FUNERAL NOTICES

The funeral services of Miss Della Newby will be held from the undertaking parlors of Williamson & Cody at 1:30 o'clock today in charge of Dr. F. A. McCarty with burial in Diamond Grove cemetery.

The remains of Mrs. Mary Kinison will be sent to Naples this morning where funeral services will be conducted at the cemetery in charge of the Rev. Mr. Haas, immediately after the arrival of the train.

## THREE CONVICTED IN CIRCUIT COURT

Men Who Held Up Crap Game Will Be Sentenced On Robbery Charge—Court Orders.

Leonard McClure, Orville Brindley and Charles Jackson, all colored, who were charged with robbery were found guilty. The case was given to the jury late in the afternoon and the verdict was returned shortly before 6 o'clock. The case was presented in behalf of the state by State Attorney Carl E. Robinson and the defendants were represented by W. W. Wright, who was appointed by the court.

The trial of the defendants in this case continued through the day. The jurors who heard the testimony and gave their verdict were Allison Thomason, G. T. Morris, Lawrence Quinlan, Edgar Austin, William Batz, Daniel Servance, L. O. Zimmer, John Ornellas, E. M. Millstead, S. E. Bergschneider, Joseph Pulaski and B. A. Smith.

The case was the result of the hold up which took place near the pumping station one day last summer. The defendants interrupted a game of craps and came away with the money. One of the witnesses who testified was H. A. Sathoff, deputy sheriff of Montgomery county. It was he who captured Charles Jackson, one of the defendants, after a revolver battle. Jackson had an eye shot out in the encounter and was subsequently arrested and brought here. He had taken a Burlington train south shortly after the hold up and was arrested on description furnished by the Morgan county sheriff.

**Law Cases**

In the distress for rent proceedings brought by Lucretia Brown vs. Carl Bourn the suit was dismissed by the plaintiff.

In the action of John Anderson vs. F. Hopper, et al. demurrer was filed to second and third pleas.

In the assumpsit suit of George J. Dowell vs. George Killings, motion was made by the defendant to set aside the order of default entered in favor of the complainant.

**Chancery Cases**

In the divorce proceedings of Hattie M. Card vs. Merle C. Card, the decree of divorce was approved and cause stricken.

In the partition proceedings of James Hennessey vs. Margaret Hennessey, et al., the decree for partition and the appointment of commissioners was approved.

In the partition proceedings of Ida E. Minter vs. Rebecca J. Leck et al., the cause was referred to the master.

In the suit of Daisy Headen vs. Thomas Headen, for separate maintenance, the decree was approved and the cause stricken.

**ALL UNION MEAT MARKETS**

Will remain open until 8 p. m. Wednesday, Nov. 27th. Closed all day Thanksgiving.

Jefferson Cruise, Secretary.

### A DOUBLE AFFLICTION

N. E. Neill of Arcadia was in the city yesterday to visit his wife who is a patient at Our Savior's hospital. The lady has for a good while been a sufferer. First she had a tedious attack of typhoid fever and when that ended it was discovered that she had had case of gall stones and these were removed a week or two ago and just in time to save her life. She is recovering now all right.

### RAY JENNINGS ALL RIGHT

E. M. Jennings of Murrayville precinct was in the city yesterday and informed a Journal reporter that he had recently received a letter from his son, Ray, with the engineer corps in France. The young man was seeing plenty of service but was safe, in good health and spirits and hoped his friends would write him as he was unable to send them all letters but wanted the Journal to take the above message from him to them.

### FILES PETITION

Richard Leake, Democratic candidate for nomination for county commissioner, has filed his petition in the office of County Clerk Boruff. He remains twenty days during which he must file petitions for this office. It will be remembered that a special election is necessary to fill the vacancy caused by the death of the late David Wilson. D. T. Summers of South Jacksonville yesterday announced his candidacy for the Democratic nomination.

### POSTAL OFFICE CHANGE

G. H. Shutt, chief operator and auditor for the Postal Telegraph Co., was in Jacksonville Tuesday checking and transferring the local office from Miss Anna Lawson to Joseph F. Barter. Miss Lawson goes to Chicago as hotel branch office manager, where her friends wish her good luck and success. Mr. Barter, who worked for a short while at the local W. U. office this fall has had considerable experience as operator, both railway and commercial and he will endeavor to give the public the best of service.

—Wool and cashmere Hosiery.

—Boys' Army and Navy Overcoats.

—New French Overseas Caps—

**\$1.00 to \$1.50**

# MYERS BROTHERS.

## T. C. HILL IS IN LONDON HOSPITAL

Canteen Worker, Well Known Here, Wounded While in Service At War Front.

T. C. Hill of Decatur, formerly of Winchester, a Y. M. C. A. canteen worker, was wounded some weeks ago and is now in a hospital in London. The injured man is a brother of Mrs. L. O. Berryman of the Vandallia road and of John R. Hill of this city. He is a son of the late Squire Isaac Hill. Full particulars have not been received from the letters stating that Mr. Hill is now able to get about on crutches. The facts so far as known here are given in the letters published in the Decatur Herald. Paragraphs from the letters are given:

November 1, 1918.

"I awoke this morning in a hospital in London, after a good night's rest feeling fine, but when I read the paper with the good news I felt extra fine. My knee is still in splints, but the pain is about all gone, and I hope to be out of here very soon. 'Tis an American hospital and that makes one feel like he was back in the states. The trip across the channel was very pleasant, and I wish you could have taken it with me. I hated very much to come just now, but couldn't talk them out of it. In the army you have to do as you are told. In my next letter, I probably can tell you when I expect to go back.

"A lieutenant, chaplain and a major that I have been closely associated with all the time are in cots just beside me. Two others that I never knew are from Illinois. You may know from the above that I can't be lonesome while I am here anyway.

Bandages Taken Off

"Yesterday the nurse took off the splints and used hot water bandages on my knee and once while she was getting a hotter one I hid the splints. Later she asked where it was and I told her the doctor must have taken it away thinking I did not need it any more. My story didn't work, she made me dig it up and as punishment, she said she tied it 30 cent tighter. She just now says photo will be taken this morning. Just think—here I am away off here and having a picture taken of my knee and this on the Sabbath.

"When I asked her why the hot bandages she said possibly there might be water on my knee.

Well Treated

"The doctor just came in and I persuaded him to take off splints. Fine, but I will be careful for a time. My guess is that the war will be over before you read this and in that case you can excuse my rambling. Four things in the daily program without any change viz.: Sleep, eat, read and write. Only break is our visiting and the break comes often. Good bed, good eats and good news lately. Everybody is happy over Italy's great victories. Few if any want to come back until the finish, but all will want to come then including the train.

## Make reservations today for Thanksgiving dinner tomorrow at the DUNLAP HOTEL.

## "FLU" QUARANTINE STILL IN EFFECT

Change in Health Regulations Likely To Come After Thursday.

There were but eight new cases of influenza according to the records in the office of the health board yesterday. This means that conditions are continuing to improve. However, J. Edgar Martin, commissioner of health and safety, said last night that no instructions had been received from Dr. Drake of the state board of health with reference to lifting of the quarantine.

Dr. Baker, who is a special representative of the board of health, and Mr. Martin after going over the local situation, recommended to the health department that the quarantine should be lifted at a comparatively early date. Mr. Martin stated last night that nothing further had been heard from the state department and that it was very unlikely that anything would be done towards changing quarantine conditions until after Thursday. It is understood that Dr. Baker and Mr. Martin both believe that it will not be well to make an order for an earlier date.

## Close At Noon Thanksgiving Day MYERS BROS.

## DR. BAKER VISITED SOUTHERN COUNTIES

Dr. E. F. Baker returned yesterday from a trip which took him into Clay, Effingham, Wayne, Marion and Jefferson counties in southern Illinois, to find facts about general health conditions. Dr. Baker is a representative of the state board of health in this work and in each county gets accurate reports as possible from county officials. Wherever quarantine regulations are in effect they cannot be lifted until after investigation and recommendation by the board of health officers.

## IN LONDON.

Earl M. Johnston, son of E. F. Johnston, is now in London and may possibly come to the United States for a brief visit before the opening of the peace council. He has been an attaché of the American embassy in Russia for the past two years and has been closely associated with the important work of which Ambassador David R. Francis has had charge.

## Don C. Clark of Macomb has been here for a number of days on account of the illness of his brother, J. K. Long, who is now improving.

## EXEMPTION BOARD NEWS

A number of people seem to have misunderstood the facts about the list of names published yesterday. These were the names of men who had failed to appear for physical examination. The statement was made that they had not been reported as delinquents to the adjutant general and the board did not wish to take this action until they had definite assurance that the men had received the notice to appear for physical examination. The board, as already stated, realized that because of influenza conditions and the signing of the armistice that some confusion had arisen in the public mind with reference to physical examination.

The following, named in the original list, have been names to be still accounted for. Harry L. Rickey, Frank E. Baker, Johnson R. Gottschall, C. Lee Cline, A. C. Harmon, Gideon Chatter, C. L. Austin. There remain, therefore, only three or four names to be still accounted for.

## Eat Thanksgiving dinner at the Dunlap Hotel. Make reservations today.

## CAPT. VICKERY WINS MILITARY HONOR

A letter recently received by Mr. and Mrs. F. J. Andrews from their son, LePoint, who is with the American forces overseas, stated that Capt. Earl Vickery is now a member of the staff of Lieut. General Bullard, who is in command of the second American army. General Bullard, it is understood, stands second only to General Pershing in authority and he has been a conspicuous figure at the war front ever since America entered into active participation. Capt. Vickery while at a Texas camp before he went overseas, was attached to the staff of General Bell, who is in command of the 33rd division. Capt. Vickery has had unusual length of military service for a man of his years and is a thoroughly trained army officer.

## Sweet spiced fruits. Douglas' Grocery.

## HOME FROM ARMY.

Private Clarence R. Taylor of North East street is home from Camp Custer, Battle Creek, Mich., having received an honorable discharge from the service. The young man is well pleased to be with his Jacksonville friends again.

## WRITES FROM FRONT

Ordrain P. Fox, who is at the war front, in a recent letter to his parents, Mr. and Mrs. P. W. Fox, stated that he has been slightly injured in one foot from a gun shot. Part of the shoe was shot away but he was fortunately not seriously injured.

# Coover & Shreve

are showing the largest assortment of Christmas Goods ever shown in their stores. The West Side Store is noted the county over as the store for Toys and Dolls and at the most reasonable prices.

## The East Side Store is Known

to carry the largest and best lines of—

Kodaks  
Toilet Cases  
White Ivory  
Desk Sets  
Desk Pieces  
Traveling Cases  
Everything for smokers

Picture Frames  
Soldier's Kits and Gifts  
Razors  
Perfumes  
Stationery  
Writing Desk Pads  
Cigarette Cases

Gent's Bill Folds  
Gent's Purses  
Pens  
Shaving Sets  
Hair Brushes  
Cigar Cases  
Mirrors

## Aw! Come and See the Rest

This week we will feature in our window, Desk Sets and Accessories. Why not send the soldier boy a Kodak now? The lid on them will likely be lifted.

## A Diamond The Gift Charming

¶ To the one we love most, we give a diamond. It is the emblem of deepest appreciation—the gift royal.

¶ We make a specialty of perfect diamonds and have assembled for the Christmas trade an exceptional assortment of loose and mounted stones.

¶ From our collection of loose stones you may select one of the particular size and brilliancy you desire, and we will mount it to your order in ring, brooch, La Valliere, pin or other piece of jewelry.

¶ This is the ideal way of purchasing a diamond. It lends an individuality to your gift, making it doubly appreciated.

We advise early shopping

Ralph I. Dunlap, Postmaster.

POTATOES - POTATOES  
My last car of the season. Extra fine Northern Kings, good eating and keeping potatoes, \$1.25 per bu. at car, \$1.30 delivered.

ROBERT MUTCH, C., B. & Q. and East State

GRIGGSVILLE  
Griggsville, Nov. 25.—Mrs. Elizabeth Johnson of Blackwell, Okla., is here for a ten days' visit with her sisters, Mrs. Edwin Love and Mrs. Joe Dyer.

The Baptist Missionary society was entertained by Mrs. Burdon and Miss Mary Beecher at the Burdon home, Friday afternoon.

Mr. and Mrs. Joe Odd left this week for St. Louis to spend the winter.

Carol Fagin left yesterday for Chicago to visit his uncle, Marshall Fagin and will enter a college to study electricity.

Mrs. Raymond Wells left today for St. Louis where she has accepted a position.

Mr. and Mrs. C. Elledge and daughter Phyllis of Chanute, Kansas, are here visiting his brother, L. E. Elledge and family.

Mrs. Elizabeth Gray is visiting her daughter, Mrs. Walter Lipcannon at Perry.

The fourteen-year-old son of David Langley met with a painful accident Saturday afternoon while out hunting with his two companions. One of the boys was shooting at rabbits and did not see Young Langley as he climbed back of a pile of brush, and fired. The right leg was torn off. He was taken to a hospital in Jacksonville where he is in a serious condition.

Mrs. Richard Moore and new baby have arrived home from the hospital in Jacksonville.

The two-year-old child of Mr. and Mrs. Stanley Orrill died Wednesday with influenza.

Mrs. George Kneeland and daughter Norine are in Pittsfield where the latter is receiving treatment for ear trouble.

NORTONVILLE  
Harry Fanning and three daughters, Alice, Georgia and Beulah, all are down with the influenza.

Walter Newby and daughter Aline have the flu.

Edna and Claude Newby have been on the sick list the last few days.

Several new cases of the influenza were reported this morning and closed the school for awhile again.

Miss Della Newby died at the home of her sister Mrs. George Westhydeman at Griffin, Ind., and will be brought back to Jacksonville Tuesday morning. We are all grieved to hear of her death. She was well known by the people around here as she lived in this neighborhood before she moved to Jacksonville.

Tom Story bought a car load of cattle around here and shipped them to St. Louis this morning.

NDIGESTION GAS OR SOUR, UPSET STOMACH

Eat One Tablet! Put Your Stomach in Order with Pape's Diapiesin.

No waiting! When meals don't fit and you belch gas, acids and undigested food. When you feel indigestion pain, lumps of distress in stomach, heartburn or headache. Here is instant relief.

Just as soon as you eat a tablet of Pape's Diapiesin all the dyspepsia, indigestion and stomach distress ends. These pleasant harmless tablets of Pape's Diapiesin always make sick, upset stomachs feel fine at once and they cost so little at drug stores.

### CAVE BIRTHDAY PARTY FOR DAUGHTER

Mrs. William Wade Entertained for Daughter's Fifth Birthday—Ladies Aid Adopts French Orphan—News Notes.

Murrayville, Nov. 25.—Mrs. William Wade entertained Thursday afternoon in honor of her daughter, Rachael Clare's fifth birthday. Those present were Mrs. J. H. Fuller and son David, Mrs. T. G. Beadles and son Wilbur and daughter Margaret Ellen, Miss Marjorie Barton and Miss Mildred Henry. The afternoon proved one of great pleasure to the guests. Miss Rachael was the recipient of several nice gifts.

Mr. and Mrs. Oliver Phillips of Peoria spent several days last week with his parents, Mr. and Mrs. R. A. Phillips.

The annual program and box supper given by the Queen Esther girls at Thanksgiving time has been postponed until Christmas.

The Ladies Aid Society of the M. E. church have volunteered to adopt a French orphan, also to give \$10.00 to the U. W. W. fund.

Edward Ketner has resigned his position at Jacksonville and has charge of Hall's branch store here.

A daughter was born recently to Mr. and Mrs. Guy Moore of Alton, Elsie Jane. Mrs. Moore was formerly Miss Ellen Wright of this place.

Mrs. C. M. Fanning who has spent the past four months with her husband at Louisville, Ky., returned home Monday.

Mrs. John Boruff spent Monday with her daughters Mrs. C. J. Vaughan and Mrs. Clyde Moffet at Jacksonville.

Miss Esther Osborne was a guest Sunday of her uncle H. E. Millon and wife.

Mrs. J. T. Warcup attended the Chapman sale near Manchester Tuesday.

S. B. Robinson was a Springfield visitor Tuesday.

C. J. Skinner of Towanda, is visiting his niece Mrs. S. B. Robinson this week.

Miss Ethel Whitlock was a guest of friends at Jacksonville Monday evening.

Willard Wesner of the Business College came home last week threatened with the "flu."

L. O. Goodrich of White Hall was a guest of Mr. and Mrs. S. B. Robinson Monday night enroute to Chicago.

OPEN TONIGHT  
until eight o'clock. Closed all day Thanksgiving. Do your marketing early.  
CENTRAL MARKET CO.  
C. F. Pennypacker

REMAINS OF MRS. McCONNELL ARRIVE  
The remains of Mrs. Julia McConnell arrived in the city Tuesday morning from California and were taken to the undertaking parlors of J. G. Reynolds. Funeral services will be held at Diamond Grove cemetery this afternoon at 2:30 o'clock.

## It's Overcoat Time

In fact it has been for some weeks now. If you're ready for a new one here's the place to come.

It isn't only that you'll find a variety of styles, young men's Chesterfields, like the one shown—box coats, ulsters, military models, but that you'll get the quality you want.

## Hart Schaffner & Marx overcoats

That's what they are. That name covers all that need be said about good fabrics, good workmanship, and good wear. If you buy now you won't need another overcoat for several seasons.

Satisfaction guaranteed

## WOODSON GARAGE

General repair work done by competent mechanics. Full line of automobile accessories, including all Ford parts. Work done with a guarantee of satisfaction.

E. W. SORRELLS, Prop.

Local distributors for Oldsmobile, Oakland, Buick and Chevrolet cars. Illinois Phone.

## Farmers and Stock Raisers

FEED YOUR HOGS AND PIGS

## "Sure Fatten" Digester Tankage

Increases weight from 1½ to 2 pounds per day, and develops bone and muscles—Contains 60% protein.

No cheaper food on the market. It is the most economical source of digestible protein known. It contains twice as much protein as oil meal and five times as much as middlings, shorts, shipstuffs and alfalfa meal. Ask your neighbors of feeders of tankage what it is doing for them. Manufactured by us. For further information, call, phone or write.

\$5.00 per bag—\$100 per ton

## Cream, Poultry, Butter, Eggs

and other produce for their full value. If you prefer we will call at your door for your produce. We frequently drive 15 to 20 miles for poultry.

## Osborne Produce Co.

Murrayville, Ill.

We always pay the highest market prices

## The Brunswick

## Is a Musical Instrument

NOT AN ORDINARY PHONOGRAPH

Owners of ordinary phonographs are confined to the use of one make of record. But, no one make offers the complete selection everyone would like.

The Brunswick plays records of any make. And it plays them better than the machine for which each was originally intended. For the Brunswick was designed originally to be the Universal Phonograph. It is equipped with two distinct sound reproducers, instantly interchangeable. One reproducer is distinctly for the splendid Pathe Records, hitherto not generally available to the American public—one for all other popular makes of records. Both steel and jewel point needles are provided.

The reason The Brunswick gives a more perfect rendition of all records can be seen in the wooden-wall sound chamber. It is built like a violin—and the same fundamentals that are responsible for the feeling and vibrancy of a violin tone gives a tonal quality to the reproduction of a Brunswick Phonograph which has made it the choice of true lovers of music.

## Story's Exchange, Loans and Insurance Real Estate

## FAIR PROPERTY

(A) Eighty acres first class black prairie land in high state of fertility, thoroughly tilled and excellent location. Three miles from two shipping points. A new seven room house built this year. Good fenced barn, cattle and hay barn and other necessary buildings. Price \$300.00 per acre.

(B) Eighty acres, five miles from the city and a mile and a half to an elevator, all fine farming land with complete set of good improvements. With every home convenience. Price \$250.00 per acre.

(C) One hundred sixty acres three miles from the city, fine black land, thoroughly well improved. Price \$300.00 per acre.

(D) One hundred sixty acres three miles from the city, one-half in blue grass, balance in clover and timothy meadow. There is a six room house, barn for ten horses, cattle and hay barn, wind mill and stock scales. Price \$225.00 per acre.

(E) One hundred sixty acres, two and one-half miles from a good town, six room house, new. Good barn and other buildings. Eighty acres in wheat. Price \$120.00 per acre; with smaller city property in exchange.

(F) Six hundred forty acres, five miles from shipping point, one hundred sixty acres in wheat, one hundred acres in blue grass, eighty acres in meadow, two sets of improvements. Price \$100 per acre.

(G) Two hundred acres all fine farming land, fenced with woven wire, hedge posts. Fine set of improvements. Price \$125 per acre.

(H) Two and a half miles from a good town, we have 320 acres fine farming land, 120 acres in wheat. Seven room house, fine horse barn, cattle barn and all other necessary buildings. Price \$125.00 per acre.

The above mentioned farms are somewhat scattered in location giving everybody a selection. They are among the best bargains I can get for my people and I take great pleasure in offering such farms because I am convinced they will always be worth the money and very likely much more. Any of them will make a fine country home for any family or a good holding for any investment. There is no camouflage or counterfeit, nothing concealed. The more you investigate the easier you are to sell. Let us show you before the farms are covered with snow.

## GET SALT FROM SEA WATER

Old Method of Obtaining Necessary of Life Is Still Practiced in Various Places.

The use of salt for seasoning and preserving foods is so ancient that the earliest written records refer to it, says a writer in Popular Science Monthly. For many centuries practically all the salt used by the human race was procured by the evaporation of sea water.

This method of obtaining salt is still employed in many localities where the conditions are favorable. A flat stretch of sea coast and a hot and dry climate are necessary if salt is to be got from sea water. An ideal locality for this industry is the coast on the Bay of Cadiz, Spain.

The sea water is allowed to collect in shallow basins, barely above high-water mark. As the water evaporates the various salts contained in the sea water crystallize out and form a crust, which is removed and shoveled in small heaps. There the salts undergo the first stage of purification.

The edible salt is drained from the other salts, which constitute the greater part of the impurities. The edible salt crystallizes out first, while the other salts retain the water and form a concentrated brine which is allowed to run into ditches dug for that purpose.

The partly purified salt is then gathered into large heaps. Occasional rains wash out the more easily soluble impurities, and the hot sun dries the salt on the surface of the pile. Although it still contains about 15 per cent of impurities it is shipped in large quantities without further refining.

## NOT WISE ABOUT OSTRICHES

Grave Difficulties Seem to Surround Scheme Devised by a Soldier Who Wants a Mascot.

The machine-gun sergeant at Douglas who wants an ostrich for a mascot and is willing to hatch it himself if somebody will provide him with an egg, does not know much about ostriches or the task in which he proposes to enlist, in the opinion of the Arizona Republican. If he gets the egg and is not otherwise restricted, he might as well be mustered out of the service. The Germans will be at peace so far as he is concerned.

He has perhaps been misled by stories he has heard of the careless, irresponsible way in which the ostrich race is perpetuated, by the laying of the egg in the sand, where it is left to its own devices until it becomes an ostrich. That may happen in Africa, where there is plenty of sand and heat, but it will not work in the climate of Douglas, where, though there is no lack of sand the sun cannot be counted upon to assist in the business of incubation. The sergeant would have to go to setting.

Moreover, the ostrich is a bird of slow growth. It would be a long time before one coming forth from the egg could become a potent influence in the struggle between autocracy and democracy. By the time it would be in readiness to be taken to Berlin the war would be over and only historians would yet be talking about it.

We would recommend some other kind of mascot, one of quicker though even of less sturdy and magnificent growth.

## Taking the Philosophic View.

"I don't see you out in your auto any more," said the first north sider to his friend. Last summer you were gone all the time; no day was too hot, no road too dusty, no storm too hard, no discomfort too great to keep you at home.

"Well," mused the second, "the price of everything is getting so high that auto riding for pleasure is really a luxury and not a necessity, so that it was no trouble at all for me and my wife to find for the first time this summer that the roads are hot and dusty, that it is a whole lot of trouble to clean up the machine after a long ride, that it is much better to sit in your own rocking chair on the cool front porch at night, while the north wind fans your cheeks, etc., ad in. So now the car stays in the garage a great deal more, there is no wear on the tires and the mechanism is not subjected to such strain as it used to be, and the car will last much longer."—Indianapolis News.

## To Have House Painted.

It was a simple boyish letter written in London by a youth from Worcester, Mass., with a little bit of news, a little bit of complaint, and a great big bit of confidence in what he and the Americans were going to do; but the better part by far was: "I have saved my pay for some time now, and I want to give dad a surprise by having the old house painted. Won't you please let me know how much it will cost? and I'll send you the money and leave the rest to you, but you mustn't let dad know who is paying for it." That same evening on a train, among the missing and reported as a prisoner, I read the name of the aviator who wrote the letter.—The Outlook.

## Portable Houses Form Hospitals.

The United States navy, with knock-down houses contributed by the American Red Cross, has been able to erect a base hospital of 250 beds on an old estate on the Irish coast. These portable houses, ready to bolt together, solved the problem of lumber shortage. The hospital has a staff of 123 physicians and attendants and maintains its own vegetable garden, dairy and poultry farm.

## THOUGHT HE WAS DIPLOMATIC

But Father of Rookie Couldn't Just See Point About His Son's "Financial Condition."

The other day a rookie, just out of college, married a girl who lived in the town where his company was in training. The young man knew he must inform his family of the event, and also that he must do it in the most soothing way possible.

"Dear dad," he wrote, "I always thought that when I married I would choose a girl who could support herself if necessary, and then if anything would ever happen to me, you wouldn't have to be burdened with her. Now, Marion is that kind of a girl. She knows all about my financial condition and—"

But when father read the letter, he paused here to reread it. "Financial condition," he snorted. "That young cub hasn't any financial condition. Why, he doesn't own the clothes on his back. Nor did he ever own them. Financial condition—well, I'll be hanged."

Another rookie had likewise married a girl who was a stranger to his mother, who boasts of Irish descent. He, too, wrote home—a letter to mother. "I have told Frances all about my family, so that now she feels that she really knows you. So I'm going to tell you all about her. She is now an orphan, but when her father was alive he was a big railroad man."

Her mother commented to the rest of the family. "Don't be excited by that," she advised them. "Your father and I used to know a very fat fireman."

## REQUISITE HOURS OF SLEEP

Acknowledged Fact That Brain Workers Need Less Than Those Engaged in Manual Labor.

Periodic sleeping is undeniably an essential to the continuance of life, but sleep is required more as a means of recuperation from physical weariness than from mental activity, an exchange observes. The best thinkers are the shortest sleepers, and on the other hand the manual laborers require the longest periods of sleep. The classic example cited to prove that the thinker does not need as much sleep as the ordinary man takes is Thomas A. Edison, who during the most active years of his life is said to have slept only four hours a day. It is not so generally known that Herbert Spencer, the philosopher, in his later life did not average more than three hours of sleep a day.

These instances should not lead to ill-advised efforts to emulate the extreme examples. One should not attempt to do better thinking by keeping longer awake, but the effort should be made to do better thinking, which will result in keeping longer awake. For if the body be not fatigued or drugged with poison, sleep comes chiefly from the slowing down of the mental processes until consciousness lapses. If an adult is not tired or full of fatigue poisons from physical labor, or if his system is not otherwise burdened with poisons from fatty diet or overeating, it is possible in many instances to cut down the sleeping period from 20 to 40 per cent of that commonly indulged in.

## Prussian Guard Long Famous.

The history of the Prussian Guard, cream of Germany's fighting men, which was smashed by the headlong attack of American troops at the Second Battle of the Marne, dates back to the latter part of the Seventeenth Century, when men believed in the divine rights of kings, and the troops of the guard could be depended on to protect the sacred body of their sovereign when all other supporters fell away.

The Prussian Guard was once a company of archers, known as the Trabant Guards. It was transformed into a real fighting force by Frederick William I, Drill with him was a ruling passion and he lavished much attention on his guard; scouring Europe for giants, as no man under six feet in height could enter his pet regiment. This requirement was abolished by Frederick the Great, who cared only for fighting ability. The stirring example of Napoleon's Imperial Guard caused the Prussian organization to be increased in size, and it now comprises a complete army corps. Into its ranks go the cream of each year's class of Prussian recruits.

## Salvaging a Ship Sunk 100 Years.

Work has been started off Boca Ciega (Colimar) by a Cuban salvage company on the wreck of a Spanish vessel sunk more than a hundred years ago. The principal objects that the company expects to recover are forty-two cannons, which, according to the divers who performed the preliminary exploration work, are still in a fine state of preservation, some mounted on the deck and the others lying close to the wreck on the floor of the sea at a moderate depth which renders their extraction only ordinarily difficult.

## Brand-New Fish Story.

Deep-sea fishermen report they recently saw a floating island in the gulf stream off Palm Beach, Fla. The island was about twenty-five feet in diameter, and the fishermen say it was composed of mud and muck, held together by tangled roots and rotted seaweed; that there were several trees and mangrove sprouts growing luxuriantly on the island. The fishermen landed on the island and found thousands of small fish on it, which sea birds were greedily eating.

## DAZED BY HUN ATROCITIES

Emotional Faculties of Affiliated Belgians Probably Paralyzed by the Horrors They Had Witnessed.

Mr. Brand Whitlock, former American minister to Belgium, has been talking about the horror of Louvain in the London Daily Telegraph:

"I was struck by the lack of passion displayed by all those who had so terribly suffered. I seldom heard any of them express hatred of the Germans or any desire for revenge.

"None of them, as far as I could learn or observe, even acted in the tragic manner. There were no heroics and no histrionics; they did not even demean themselves as do people in the cinema or the romantic novels.

"In moments of great danger, or great strain and tragedy, people are simple and natural; they do not act in the theatrical sense of the word."

To say that a play could be acted without gesture or other expression of what we feel is absurd. Nor would, I think, history support Mr. Brand Whitlock's inference, whatever may have been the story of unhappy Belgium.

When Mme. du Barry died upon the scaffold in Paris, her shrieks delighted the knitting women. The Duc de Guise ran wildly from his assassins to throw himself at the feet of Henry of France. Pitt wept for his country's misfortunes—the family of the ill-fated Louis XVI did not cease their lamentations all night when they heard that he was to be guillotined at dawn.

The cholera of Judge Jeffreys found expression in the ravings and rantings of a madman. Boabdil wept when he was driven from Granada. Henry VIII could swear like a fishwife—Catherine Howard shrieked at Hampton court, and the superstitious hear her shrieks to this day.

In my view, the unhappy Belgians were dazed by the very horror of the circumstance. The atrocities committed by the Hun were too awful. Shall we wonder if the emotional faculties were paralyzed?—London Dispatch.

## UNITED THOUGH FAR APART

Ceremony Known as "Handschoen" Recognized Under the Dutch Law as Legal Form of Marriage.

Not so very long ago a Boer in Pretoria was married to a girl in Amsterdam, Holland, the ceremony constituting what the Dutch call handschoen, or glove marriage.

In spite of the fact that a distance of 6,000 miles lay between the bride in the Netherlands and the bridegroom in the Transvaal they were just as effectively married under the Dutch law as if both had been present in the same church.

The bridegroom sent to his friend, or best man, in Amsterdam a power of attorney to represent him as his proxy at the ceremony, and at the same time forwarded his glove, which at the proper moment, when the two were made one, was held by both the bride and the proxy. The wedding was duly registered at Amsterdam and at Pretoria, where the bridegroom filed an affidavit with the proper magistrate.

This curious form of marriage is a purely Dutch institution, the custom having originated, it is said, in the old times of Dutch-Batavian rule. It is, however, a dead letter in the Transvaal since the English took over that colony.

## Thirty? Use Belt to Get Drink.

When Oliver Herford comes to a babbling brook and wants a drink, he does not throw himself prone on the mud and try to get water on the vacuum-cleaner principle adopted by the cow, nor does he use his Panama on the Gunga Dhin principle. He might use a straw or a drinking cup, if he could ever remember to carry them with him. A hundred things he might do, if he could think of them.

But what really happens? Oliver takes off his belt and winds it up as tightly as he can. The coils are wrapped around one another so that a cone is built up. That forms a cup with a hole in the bottom. Oliver uses a finger as a stopper for the hole, and proceeds to dip up his drink in the fashion set long ago by the first civilized man.—Popular Science Monthly.

## Month of Harvest Moon.

Aside from the autumnal equinox, September each year is marked by another astronomical event of considerable interest, namely, the so-called harvest moon, it being the full moon nearest the autumnal equinox. The harvest moon rises at nearly the same time for several successive evenings instead of nearly an hour later from night to night, as is usually the case, and it is from this continuous run of bright moonlight nights that this moon is said to derive its name, farmers as a rule taking advantage of the extra light to gather in their late summer crops and store them away for the winter.

## Illustrates Red Cross Needs.

Twenty thousand dozen pillow cases, 11,000 dozen pairs of bed socks and 19,000 dozen face towels, just reported as being on hand at one American Red Cross supply house in France, gives an idea of the size of the stocks maintained by the organization.

## Thoughtful Uncle.

"I write for the few," declared the amateur poet.

"And a good idea, too, declared his grouchy uncle; "the fewer the better."—Kansas City Journal.

## Feed For the Hog

## Willard STORAGE BATTERY SERVICE STATION

## Batteries? Only One for Me

If you saw batteries every day as I do you'd say the same, and your choice—like mine—would be the Bone Dry Willard, with Threaded Rubber Insulation.

You'd know—as I do—that every Bone Dry Willard Battery is new when it's sold—ready to give full battery value.

We keep a complete stock of Bone Dry Batteries—every one as brand new as the day it left the factory. Not a one of them is ever filled or charged until it's made ready for use.

Read more about this remarkable battery in the booklet, "196,000 Little Threads." It's yours for the asking.

We test, repair and recharge batteries, and always carry a full supply of battery parts, new batteries and rental batteries.

## KANSAS CITY

## MARKET LETTER.

Kansas City Stock Yards, Nov.  
25.—The purchases of cattle here  
last week to be taken to the wheat  
fields of Kansas and Oklahoma  
were largest on record. The  
wheat men bought mostly cheap  
stock cattle at \$6.50 to \$9.50, and  
thin cows at \$5.25 to \$7.25.  
Prices of these cattle the first  
part of the week were higher but  
the finish was 25 to 35 cents lower  
on the stock steers and the  
thin cows sold Friday and Satur-  
day on a canner cow basis \$5.25  
to \$5.50. There was a good de-  
mand for feeding steers, most  
sales at \$11 to \$14 with a few  
fleshy steers up to \$16.00 and the  
best stock steers at \$10 to \$12.  
Packers are not getting enough  
fat cattle and they take some of  
the fleshy steers. The supply  
Monday of this week was \$28,000  
cattle, a large number coming  
from Colorado and other western  
range states. Many well bred  
yearlings and twos were included  
and most sales of these were at  
\$9.25 to \$10.25. The fine open  
winter is permitting ranchmen to  
get their cattle out to market in  
good shape and railroads are fur-  
nishing sufficient cars to move the  
stuff unhindered. However, the  
cattle will drop off each week  
from now on, tho there will be  
quite a run from Colorado and the  
West the balance of this week.  
Stock pigs are lower than a week  
ago and sales on the open market  
today at \$12.50 to \$14 with lib-  
eral receipts available. Feeding  
lamb are in good demand, sales  
ranging from \$12.50 to \$14.50 in-  
cluding some light weight lambs  
35 to 45 lbs., at \$12.50 to \$13.  
Nine cars of heavy hild Arizona  
feeding lambs weighing 65 lbs.,  
sold Monday of this week at \$14.  
J. A. Rickard.

## AIR CHOPPED UP BY SHELL

Aviator Describes Effect of Heavy Missile Which Passed Some Hundreds of Yards From Airplane.

A British aviator who had been flying in France since the beginning of the war told the story of meeting a shell from a German 17-inch gun while he was in the air, says Popular Mechanics Magazine.

"I was at an altitude of about 6,000 feet one day and climbing higher at an easy angle, when one of those big fellows, almost at the end of its long flight, came plowing along in the opposite direction," he says. "First a dark little blur appeared ahead at an angle of about 35 degrees above me. At first it seemed to be coming right at me and I swerved to the left in an instinctive effort to dodge the threatened blow. Then a sort of droning hum became audible and that sound increased during the two or three seconds that elapsed before the big missile came up to me and swept past. It was probably several hundred yards away at its nearest, but the distance seemed less.

"A few faint stirrings of air began to rock my machine even before the shell went by, but the full force of the 'air wash' came a fraction of a second later. Then an almost solid wall of air nearly threw me on my beam ends and I was really hard put to it to get the reeling machine back on an even keel. For the next mile or two the air was like water in the wake of a big sidewheeler—all chopped to pieces—and the machine rocked like a springless lorry going over cobbles. The air was disturbed for some seconds after a loud roar astern had told me that the shell had come to earth."

## CONSIGNED FLAG TO OBLIVION

Youngsters First Burned German Emblem and Then Solemnly Buried the Ashes in the Earth.

"The war is making a wonderful impression on the mind of American childhood," remarked Dr. Edgar DeWitt Jones, a Bloomington (Ill.) pastor, discussing current topics with some friends the other day.

Doctor Jones relates a little story about his young son, age ten, to illustrate. In 1910 the pastor made a tour of Europe and brought home with him a flag of every nation visited. Occasionally they would be brought forth to exhibit to visitors, but for the last two years had been kept undisturbed in a box in the doctor's study. One day two months ago the little son very earnestly said to his father: "Papa, haven't you a German flag?" The pastor replied that he thought there was one in his collection, at the same time explaining to the lad that the Teutonic banner was not popular these days and was not to be exhibited.

A few days later the little son was more insistent. "Papa," he said, "I want that German flag; please get it out for me."

"I got the boy the flag," said Doctor Jones, "and through the window of my study watched what followed. First the boy called his sister, Dorothy. The children took the flag into the yard and with much ceremony burned it. When it had been reduced to ashes the children carefully gathered them and put them in a cigar box. Then they dug a little grave and buried the ashes. There is a little mound in the yard to show where the ashes of the kaiser's colors are resting. I have never mentioned the incident to the children and they do not know that I watched them."—Indianapolis News.

## Popular Prince.

The bearing of the Prince of Wales all through the war has won him the admiration, respect and affection of the British peoples, here and overseas. We need not enlarge upon this, for every one knows that to say so is no courtly form of words. The prince will go to the overseas countries of the empire when the time comes with the unique advantage of having seen with his own eyes the shining qualities—revealed during the ultimate test of character—of the races that make up the empire. He will go, too, for his own instruction and enlightenment, as the king said frankly of himself last year when he foreshadowed his visit—London Times.

## Used Liquor as Bait.

The burgomaster of Arnsberg, Westphalia, Germany, having failed in all endeavors to induce the farmers of the neighborhood to bring in supplies, placed this advertisement in the local newspaper: "This municipality will buy all agricultural products for cash at government prices. Every person who delivers 100 pounds of bread grain or 300 pounds of potatoes will receive a ticket entitling him to buy a bottle of brandy or rum at reduced prices from the municipal cellars." Within twenty-four hours the cellars were empty and the residents of Arnsberg enjoyed the first square meal they had had for weeks.

## When to Cut Walnut Trees.

Warning as to the proper time to cut walnut trees is sounded in a letter to the American Forestry Association from Dr. Robert T. Morris, an authority of New York city. The black walnut is destined to play a big part in the war and President Wilson has called upon the Boy Scouts to mark the trees. "From September to April is the time to cut these trees," says Doctor Morris, in his letter to the association. "If the trees are cut at other times the roots will die. It is very important to observe this rule to safeguard our future timber supply."

## TOUCHED BY SERVICE FLAG

Youngster on Brink of Disgrace Resolved to Be Worthy of Emblem Displayed in His Honor.

"Why the service flag?" is an old question, but from one of our middle West towns comes a new answer.

A wealthy family in an Indiana town had a son, who had never done anything to reflect honor on his family—a family which was proud of its famous ancestry. He didn't enlist when this war broke out, and then tried to evade the draft, but was compelled to go in a recent call. He entered a training camp a few miles from his home town.

Rules and a regular life were hard for him. Smarting under a well-deserved reproof, he one night decided to desert. He slipped away from the camp and, under cover of darkness, made his way to his home in order to get his civilian clothes and better effect his escape.

Just as he was ready to scale the front veranda of his home he noticed the service flag in one of the house's great front windows. There it was—in the most conspicuous place the house afforded—a great silk flag with its one blue star.

"It's for me," the boy thought. Through his mind passed the memory of his life—a failure in winning any of the honors his family had wanted for him. No college diploma not even a high school one, had he received—nothing except this one star in this flag had he ever let his people claim as his contribution to the family famous name.

He turned back toward the sidewalk. "They'll get to keep that honor," he told himself. "I'll make it bigger, too," and he slipped back to camp, elated to find that his absence had not been discovered.

## WHO CAN RISE TO OCCASION?

Name of Man Capable of Formulating "Umbrella Regulations" Will Live in History.

With the passing of each rainy day it becomes increasingly strange that no benefactor of the race has been prodded, gouged or spattered into preparing a "Manual of Umbrellas." People have been carrying some sort of protection against the rain ever since anybody can remember, yet the only thing they have really learned to do well is to lose umbrellas. No two persons, not even lovers, can walk under one umbrella without getting wet, and raincoats probably were first devised by a man who tried to carry an umbrella over his wife's hat. What excuse is there for the person who goes through a crowded street holding an umbrella before him in a charge-bayonet fashion? An apology does not exactly meet the requirements after the tip of an umbrella rib has been thrust into some one's eye. Folded, the umbrella is just as dangerous, when some one comes plunging along the sidewalk holding the umbrella at an angle of about 45 degrees ahead of him, tripping every one but himself. Then there is the person who tucks the handle under the arm, so that an innocent person may become speared on the sharp end which sticks out like a 60-foot telephone pole on a 15-foot truck. Furthermore, wet umbrellas never were intended as partitions between seats, even at a motion-picture theater. There is no desire to distract the best brains of the country from consideration of war problems, but some sort of umbrella regulations are needed.

## Silvery Bark of the Yellow Birch.

The bark of the yellow birch can be compared with nothing else. The tree is unique among trees. The yellow birch, often better called the silvery birch, has a bark more tinsel-like than that of any other tree. It seems to have been made for campers to admire, or perhaps, in an emergency, to use to kindle the camp fire, says Edward F. Bigelow in Boys' Life. But do not allow the appreciation of the useful to overcome your appreciation of the beautiful. It is true that the bark may thus be used for kindling, and it is also probably true that the removal of the loose bark does not injure the tree, but such removal injures the beauty of the tree, as you then deprive it of its chief characteristic. The manner in which the bark breaks on the main trunk, expands and rolls back in ribbonlike curls and strips, which long remain attached and rustle in every passing breeze, could not fail to elicit the admiration of every lover of the forest.

It is noticeable that on old trunk the character of the bark is different as there it is roughened by irregular platelike scales.

## In Vaudeville.

Draft men coming to Camp Kearny recently for training decorated the railroad cars in which they traveled with all sorts of mottoes and inscriptions.

When they got there they were required to wash them off. However, one car got away from camp in some unexplained fashion, while these words still adorned its sides:

"This is the bunch that's going to make the kaiser whistle the 'Star-Spangled Banner.'"

## Peculiar Cause for Divorce.

In a divorce case at London, England, the petitioner, a lance corporal in the Gordon Highlanders, said his wife, an Englishwoman, refused to be seen with him on the street because she did not like him in a kilt. When he was on leave later she greeted him with "Oh, those d— kilts!" The husband was granted a decree.

## CALLED FOR QUICK THINKING

Skipper of Burning Ship, With Cargo of High Explosives, in No Position to Hesitate.

The Cephalonia was deeply loaded with shells, and her chill-rooms were filled with T. N. T. for the Italian army, writes R. E. Cropley in the Atlantic. She was well in the midst of the convoy proceeding down the Thames, and had just passed beyond the submarine net, when a thin pencil of smoke was seen to rise from the corner of No. 1 hatch. It happened to catch the third officer's eye first, and he called Sammy's attention to it. In two shakes Sammy had sounded four blasts on the siren, and a flag fluttered from the yard-arm, which caused all other ships to give him a wide berth, as the propeller of the Cephalonia churned up the sea in her frantic effort to back and turn as if to return to London. A ship on fire should return to port, but Sammy, with a cargo of T. N. T. wasn't the kind of a skipper to risk blowing cottages and huddles into the next world in an effort to save his own skin. No; he turned the Cephalonia till her stern was head to the breeze, and slowly kept her backing seaward to restrain the fire, if possible, from spreading aft to his chambers of T. N. T.; backed her away from port and other ships, so that, if she did blow up, the military loss would be confined to the Cephalonia alone. And all the while he was wondering what moment a U-boat would pop up and send a torpedo into him, or he would strike a drifting mine.

## DUBLIN BOOTBLACKS IN 1780

Polish Used at That Time Was a Combination of Lampblack and Rotten Eggs.

Among the populace of Dublin in 1780 the shoeblacks were a numerous and formidable body. The polish they used was lampblack and eggs, for which they purchased all that were rotten in the markets. Their implements consisted of a three-legged stool, a basket containing a blunt knife, called a spudd, a painter's brush and an old wig.

A gentleman usually went out in the morning with dirty boots or shoes, sure to find a shoeblack sitting on his stool at the corner of the street. The gentleman put his foot in the lap of the shoeblack without ceremony, and the artist scraped it with his spudd, wiped it with his wig and then laid on his composition as thick as black paint with his painter's brush.

The stuff dried with a rich polish, requiring no friction, and little inferior to the elaborated modern fluids, save only the intolerable odors exhaled from eggs in a high state of putridity, and which filled any house which was entered before the composition was quite dry, and sometimes even tainted the air of fashionable drawing rooms.—University Magazine.

## Playing Duckboard.

Do you know what duckboard is? It's a kind of a game first played in a primitive and mild sort of fashion by Rocky mountain goats and since modernized and made difficult by the American army. The apparatus on which one plays duckboard is a mixed breed contrivance, by Washboard out of Corduroy Road, to use the racing vernacular. It is made up of narrow, slippery strips of rounded wood laid crosswise about two inches apart, and is supposed to keep one's feet out of the mud. It does! While playing duckboard one's feet are usually in the air. It is called duckboard, I suppose, because of some silly belief that a duck could walk it without falling. Even airplanes flying at a height of less than 5,000 feet have been seen to wobble and dip drunkenly while passing above trench lines floored with duckboards. And when it is laid upon the surface of the earth and there are no handy trench walls to help out—well, it's lucky for Charley Chaplin that the wide world didn't see me operate. Nothing could ever again be funny to a man who saw me play duckboard out there in the comparative open of that wood!—William Stevens McNutt, in Collier's Weekly.

## Soldier's Appreciation.

Recently a woman well known in America, who has devoted all her time to relief work since the war began, was visiting a hospital. The commanding officer had sent a military car for her. She entered the car just as an ambulance filled with wounded passed by. As she noticed the thin, pale faces, tears came into her eyes. The soldier-chauffeur asked if she was ill.

"No," she said, "these are tears of gratitude and pride."

"Madame," replied the boy, simply, "if I thought that my being a soldier was worthy of but one of your tears, I should feel that I had not lived in vain."—Red Cross Magazine.

## Huns to Wear Bark Shoes.

To help out in the present great scarcity of leather and the consequent dearth of footgear, a German army authority recommends the introduction of linden bark moccasins such as are worn by the Russian peasantry. Made from the bark of young twigs, these shoes are said to stand two years' wear; yet they are light and easy and can be made to fit well. The linden forests of the prince of Monaco, near Laon, France, Germans say, would supply sufficient bark to make 1,000,000 shoes, and the making of them would furnish excellent light occupation for prisoners and slightly wounded.
